* Allow a large enough gap between the Chamber Ensemble and Duo
so as the listener percieves two sound sources yet is aware of the combinations
the two musics form together.

The score is written at actual pitch with the exception of the following instruments:
(A) Piccolo, and Xylophone: sound one octave higher than written

Note to the Percussionists: Each skinned drum is scored
for two pitches: high and low for six graduated notes. The two
individual pitches per drum can be produced at the center(lower pitch)
and near but not on the rim of the drum(highest pitch). See score
