

# MARIE MANAGEMENT LLC.

Creating and Expanding Magical  
Nonprofits for Extraordinary  
Purposes.

## **BUSINESS STRUCTURE**

Business plans, case studies, investor reports, strategic plans and system designs.

## **BUSINESS DEVELOPMENT**

Develop cross functional departments in order to determine possible earned income opportunities.

## **BUSINESS IMPLEMENTATION**

Execute the proper actions to benefit 100% from the for-profit and nonprofit businesses together (hybrid model).

## **WE SPECIALIZE IN HYBRID MODELS**

We implement nonprofit businesses into for-profit business structures for the purpose of earned income streams that promote long-term sustainability for both entities. We also implement for-profit businesses into non-profit business structures for the same purpose. Here at Marie Management our clients are only 10% grant dependent due to this funding model approach.

## WE WORK FOR VULNERABLE POPULATIONS

Marie Management only consults and manages for companies that are currently or would like to serve 1 or more of our selected 12 vulnerable populations. From children to veterans, we work on behalf of those who can't otherwise sustain without the products and services of our clients.

Rather for-profit, non-profit or both, our clients have a purpose of implementing new earned income streams with a mission to serve vulnerable populations with a percentage of all profits. With this vision, we impact businesses and vulnerable populations nationally and internationally.
