

Półgą takie same skarpety. Przewyż.

Drodzy Rodzice, rozpoczynamy naukę kolejnych sylab z paradygmatu WA, WO, WU, WÓ, WE, WI, WY.

Uczymy wg zasady: powtarzanie, rozumienie, nazywanie.

Rodzic mówi: WA (dziecko powtarza), Rodzic mówi: WO (dziecko powtarza) itd.

Po utrwaleniu Rodzic pyta: gdzie jest WU?, Gdzie jest WA? (dziecko pokazuje).

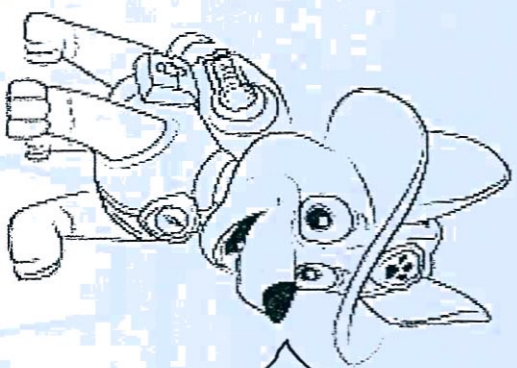

Kolejny etap to samodzielne czytanie, Rodzic pokazuje dziecku sylabę, dziecko czyta.

Powodzenia!

WA WO WU WÓ WE WI WY
