# DO YOU OR ANY OF YOUR LOVED ONES SUFFER FROM HAYFEVER?

  
pollergen™  
CAN HELP

Louvolite has created a unique fabric treatment which will help relieve hayfever symptoms, it's called Pollergen™.

## HOW DOES POLLERGEN™ WORK?

Pollen, by its very nature is tacky and will stick to any surface it comes into contact with. Pollergen™ helps to increase this capture rate by the inclusion of a tackifier within the formula.

Once captured, the unique Pollergen™ formulation will denature up to 50% of the grass pollen - essentially it kills the active element rendering the affected pollen absolutely harmless to sufferers.

All Pollergen™ treated fabrics can be washed or wiped down as the active formulation continuously migrates to the surface of the fabric for continued protection.

So when selecting your new roller blinds,  
make Pollergen™ your fabric choice.
