

## You'll See

When you look around this world of ours,  
When you see all that you can,  
It doesn't take much to realize,  
It wasn't created by just any man.

As you study science and understand,  
That our Earth is just the right distance,  
From the Sun, Stars, and from the Moon,  
And any closer to either, Mankind  
would not be in existence.

That if the water didn't evaporate,  
And warm and cool and fall,  
There would be nothing with which to irrigate,  
No life on Earth at all.

If the Earth was tilted just a little more,  
Or if it didn't tilt at all,  
We'd have the same season all the time,  
No Summer, Winter, Spring or Fall.

Some say there is Evolution,  
That everything started from a Bang,  
That order out of chaos is the solution,  
That no Angels ever sang.

How long would it take a car to evolve?  
Or a house, a dam, or a plane,  
How long would it take a math problem  
to solve?  
Or to build a highway with another lane.

Science says matter cannot be  
"Created,"  
And it can also not be destroyed,  
But yet we know it's already here,  
Which causes some scientists to be a  
bit annoyed.

Everyone can look around and see,  
All that has been "CREATED" by the  
human mind,  
Yet it's all made of preexisting stuff.  
Man has never created matter of  
another kind.

Many have come to place their faith,  
In an Intelligent Design,  
That God created everything,  
And allows man to build and refine.

These people have seen the obvious,  
They know there is something more,  
Than what can be seen by mortal man,  
It's like looking through a new door.

Many have taken just a little faith,  
In a Book written years ago,  
That faith then grew with leaps and  
bounds,  
They learned much that they didn't  
know.

Once that little seed of faith takes hold,  
When we surrender and say we don't  
know,  
When we hear the stories and facts  
from old,  
We see the truth begin to flow.

The Creator sent mankind on a mission,  
To go throughout the entire world,  
To tell everyone willing to listen,  
That there's so much more to life than  
just gold.

He tells us how He created us,  
With talents, a heart, and a soul,  
That He gives us power to answer His  
call,  
That for us to have eternal life is His  
goal.

There are millions who started where  
you are,  
They had no reason to seek or to find,  
Every man arrives here with nothing,  
As for Creation, we all begin, by being  
blind.

But then someone came with a story,  
Of experiences that cannot be  
explained,  
That a power and knowledge came  
upon them,  
As God replaced doubt and they  
became less strained.

That man who is Created by God,  
Much like a machine that was built by a  
man,  
Is designed to operate in a specific  
way,  
It's only by the Designers hand that he  
can.

You see we have a Heavenly Father,  
Who wants us to be his daughters and  
sons,  
There's a way we become joint heirs  
with Jesus,  
Those who acknowledge Him are the  
only ones.

You may feel that you don't have the  
power,  
To abide by the rules He has made,  
But He knows how you are 'cause He  
made you,  
He has provisions for our imperfect  
grade.

Many have awesome stories to tell,  
Of how they believed and began to see,  
Of the power and peace that comes to  
live within,  
They are people just like you, and me.

For you see I have experienced so  
much,  
As with all some was good some was  
bad,  
Loss, suffering, pain, fear and such,  
Some things I wish I never had.

But God works in mysterious ways you  
see,  
Ways unthought of by folks like you  
and me,  
He has made many plans for us,  
As to how He'll offer to make us to be.

He fills us with what's called His Spirit,  
He surrounds us with Angels too,  
He offers to guide us through this life,  
Offers Eternal life to me ... and to you.

But He gives us a Choice ... Free Will it  
is called,  
Some will accept His offer, some  
decline,  
This is that one time in our lives,  
When a surrender becomes the  
sublime.

I have personally experienced how His  
Power,  
How His love, His mercy, and grace,  
Has come in to my life and that of  
others,  
And has made our world a new,  
amazing place.

We are praying for God's intervention,  
In your life like He has done with ours,  
We just admitted that we needed a  
Savior,  
From this world and from known evil  
powers.

## You'll See!
