ON THE COVER:

POSIE AFRI 52Y

See Page 35 for more
details about this bull.

Welcome to the **2017 Biggest Racks Bull Book**. It is the most exciting time of year, seeing new pictures of bulls & stats and watching to see what bulls are getting the industry excited. Enjoy the following pages of outstanding bulls. Use this as a reference all year long. The book and website will continue to grow so feel free to contact biggestracks@gmail.com & submit your bulls; the new, the old and the up & coming, to be included on the website or in the next printed edition. For a digital copy of this book as well updated pictures and scores go to www.biggestracks.com. If you missed this printing but want to advertise your bulls on the website right away please contact us (403)783-0226 biggestracks@gmail.com by **MSW Farms, Mark & Tina Stewart & Family**

The 2017 BULL BOOK is dedicated to the Memory of GEORGE STEWART. He encouraged us to do things differently, to get your butt out of bed & make something happen. He was involved in agriculture all of his life and soon joined the elk industry after Tina joined the family. He enjoyed a life time of farming and work in the auction field. He was an active part of MSW Farms.

Caliber scored 406" on his head at two years old. He was a breeding machine at two as ultra sound confirmed his work in November. Semen collected by Dr. Martin Wenkoff. We are excited as Caliber is a

nice out cross for our herd and it is a pleasure to have a walking bull looking too measure up to Good Old Prospect. We look forward to watching the Caliber cross Prospect offspring as they grow. His Sire Longitude won both Typical and Non-Typical back to back at Alberta EXPO with an official score of 498 2/8" and was 507" on his head. Caliber's DAM is a son of Cobra who scored 517" at 6 years of age. Cobra's son, Levi Scored 560" and is the sire of AGPE 430X which is Caliber's Dam. The Grand DAM is by Raisin Bread who was a 7x7 and had great style. On the sire's side, Longitude's sire is Raisin Bread and his dam is by Reed. Check www.biggestracks.com for update 2017 scores.

Here is a opportunity for the typical fans from our up and coming sire. Garmadon scored 355" at two. With a clean typical frame like this his sons will be in demand by the preserves. Along with his production comes a strong line of pedigree. His sire is X-ray (532 SCI master measured) out of a Levi dam (Levi and 575 green), and the Grand Dam is by Prospect (Prospect 568" Green). Three generations of sires well over 500 and for those looking for an interesting out cross from the traditional Alberta lines here it is. Semen is stored at Live-stock Reproductive Technologies and is available in Canada and the United States.

Hook was a flat top wide bull at two when we velveted him, I wanted to grow him out at two but he was the first bull in the squeeze in the group and after cutting a few bulls the crew said " Hey where's that bull Barry wanted to grow out...oops. I liked him at two with 16.10 lbs he had more style so I over looked the lighter weight and he saw some heifers. Hook got grown out at three and just snuck over the bar to 401 6/8" on his head. Thanks Mr. Steem for scoring him in my absence. Hook is a Horizon son out of one of our stand by foundation cows that produces above average offspring every time. 2016 score 436". Please check www.biggestracks.com for updates.

Hundo is a young bull that we will be watching, He has a great 7x7 frame with a strong 8th point on his drivers side he is non-typical but a pretty stylish non-typical at that. Even after moving him down this winter from Glen Park Elk in Alberta he settled in and has grown a nice rack. His Prospect dam is coming out and showing some nice width, Barry commented that this will be the best typical looking

Levi son they have produced. We are

looking forward having a solid back up bull that will keep things toward the typical side and have stylish offspring with good width in the near future.

Imperius is an amazing young bull out of our AI program, producing 19.2lbs at 2 and 500 1/8" with 52" inside spread at 3 years old on his head. He is a very clean bull with a lot of action at the back end. A lot of his traits can be seen coming from his parents (width, tine length, extra tines at the back, velvet wt. etc etc.). Don't miss out on this next generation bull.

In Canada & USA

Marshal is an outstanding Udenia Bull son. He has long heavy tines, huge thirds & a long heavy beam with amazing whale tails. His 5 year old official score of 493 1/8 used the 42" spread credit. If using his actual spread of 52" his score would have been 503 1/8". Marshal has eye appeal due to the style & sheer mass of his antlers. He is a great all around bull with over 500" & good velvet weights. For 2017 (still growing at printing) we are hoping to hit 540"! He has an amazing top end, and many inches of antler above his 4th tine as below.

PARALLEL

Parallel was born North of the 49th and as of last winter he has been enjoying his time South of the

49th. Parallel was a bull that Glen Park Elk overlooked as it was the Caliber year.... at two he was 14lbs and over-

looked by the folks at Glen Park Elk as they were too busy and admiring Caliber. At three Glen Park grew him out and he was 416", Model T Elk Ranch brought him down as we like his typical look. Parallel went for a road trip and after his move he still had a nice increase, in the sweet clean Utah air he Scored 445". He has a nearly typical head this year and with the move we will be watching to see how he adjusts after a year although with his score it would appear he has already settled in. Looks like he is starting his sixth point so he will have a 7x7 main frame.

It has been a pleasure to have a back up bull like Presumptuous. His calves have great body size and antler production. Sons are velvetting in the top 1/3 of our herd. Not bad for back up offspring 2 to 3 weeks behind the rest of the pack. The biggest regret is that he did not see enough cows during his time on our ranch as he was shadowed by Prospect, and many AI sires we have been using. Presumptuous is getting grown out this year and may be marketed. He has improved our velvet weights and we have semen in the bank. \$200/straw collected and stored by Dr. Martin Wenkoff.

Prospect will always be one of our iconic foundation sires. His wide, reasonable typical frame, has produced many typical sons and a few hogs that are non-typical. Might have something to do with the Dam... Prospect has brought in width and added both Velvet weight and inches to the herd. He scored 568 4/8" on his head with his actual spread credit of 64", and 544 1/8" at EXPO with the calculated speed credit. A few Prospect straws will be released in Canada every year so watch for them or book your straws in advance. The only unrestricted semen sales are in the United States. Congratulations to the Foggy Bottom Boy's who brought in a 24lb Prospect son at the 2016 - National Elk Velvet & Hard Antler Showcase that placed 5th. Also take note that Prospect should get an honourable mention on Sandy Hill's 19.80 lb Bull as Prospect is on the Dam side. Sandy Hills Elk also produced a 469 2/8" five year old Prospect son which cut 55LBS at 6 years old. Have a look through the 2016 Bull book for a few of his up and coming sons we have an eye on. Super Mag by Prospect! Super Mag was 395" at two in 2015. This bull is a cross between Prospect and Levi, the great Grande dam is no slouch either as she is sired by Sandy Hills Hok who scored 522". Both Prospect and Levi have great sons proving their ability to pass on. Like other Prospect sons Super Mag's beam flares out adding air between his beams and giving him presence that harvest preserves are looking for. Three generations of well over the 500"

club has taken many years to build and here you can jump to the front of the line if your looking to increase you width, velvet production and raise your scores.

Riverbend Elk Farm focuses their breeding program towards large, typically framed bulls still with impressive mass. At the young age of 2, Whiskey-Jack was one of our newest herd sires scoring 355 4/8 at two. Whiskey-Jack comes from a line of proven genetics which includes a large, typical hard horn pedigree. His sire was a young, large, typical 6x6 bull scoring 432 at the age of 5 with bloodlines going back to Sultan and King George (470 SCI Typical with a 60" spread). He has a dam side including 6-Pac (469 at age 6, as a large framed typical 6x6), Whiplash and King. There is no doubt with his genetics he destined to be a good herd sire.
