Find **inspiration** in the latest **home interior trends**

What does our dream home look like? Authentic, natural, dynamic and especially having that personal touch. Floors are a main feature of this dream.

A home should exude life

The 'perfect' interior is a thing of the past. Neat and tidy is old school. Today, a certain degree of organised clutter is quite acceptable. Wood with a weathered look, interior paints in patina blue and opal grey, as well as items in brushed steel: that's what you'll see in today's new interiors. We want a place for living, in tune with the lifestyles of its occupants rather than the other way around. A home needs to feel authentic and harmonious.

Back to nature!

What was once a trend is now fast becoming a way of life. A home should feel natural with natural stone, linen, clay and wool as basic materials. In fact, these are exactly the kind of structures and colours that are making a big comeback. The wood look too is gaining in popularity. It is a great atmospheric element that looks warm and stylish. A Quick•Step® floor is the perfect match for these interiors. It's durable and made for living.

The new colour trends

We selected several striking trends in furniture, soft furnishings, wall coverings and floors.

2

Colours derived from natural products such as beiges are key atmospheric elements in our interiors.

1

A rich palette of **blue tones**, from light pastels to turquoise and navy blue. Jeans are also back, as strong as ever!

4

Bright colours are back. The colours of the rainbow brighten up any interior: a few accessories can make a big difference.

3

Following in the footsteps of the marked return of silver, **copper and gold** are all the rage today. These are used especially for accessories such as vases and crockery.

5

Age-old and brand new: soft furnishings are in again. In a myriad of **designs and colours**. A prominent trend is the revival of time-honoured designs in completely new colours.

Really trendy!

YOUR FLOOR, YOUR STYLE

To a large degree, the style and appearance of your room is determined by the colour of your floor. Real natural tones provide a timeless effect, white for an extra spacious look and feel, warm shades for cosiness, black for a dash of luxury, etc. Warm grey designs can be used practically anywhere and can be perfectly combined with a varied interior. And last but not least: don't be afraid to experiment. A personal touch will turn your house into a real home. Below is a selection of colour schemes and interior tips to give you some ideas and get you started. They are all based on the colour you choose for your floor.

CLASSIC & TIMELESS

This classic floor colour remains a firm favourite. With good reason, as it's an all-round as well as timeless colour. A floor with a natural tone remains attractive even as your interior style evolves over time. A Quick•Step® laminate floor with the appearance of oak in a light colour palette infuses your home with plenty of character and shows off classic and contemporary furniture to great effect.

Natural tones

EASY TO COMBINE

The peaceful character of a floor in natural tones perfectly lends itself to a wide variety of combinations. Depending on the textures and designs of the wallpaper, soft furnishings, accessories, paint, curtains, etc. you can give your interior a country house or contemporary look while maintaining the same floor.

SLEEP TIGHT

Are you looking for peace and harmony in the bedroom? Then go for a floor without a plank pattern, such as *Morning oak light*, and combine this floor with subtle blue, lavender or chocolate brown ... Sweet dreams!

A floor with a saw-cut structure gives your interior more personality.

WHITE ASH PLANKS | ELIGNA U 1184

CERAMIC DARK | EXQUISA EXQ 1555

CREATE STYLE WITH COLOUR

Depending on the colour you combine your beige floor with, you will get a different effect:

- White: fresh and young
- Dark colours, such as dark grey and black: chic (especially with high gloss)
- Natural and brown tones: country house, romantic, cosy
- Bright and pure colours: dynamic and modern

CERAMIC LIGHT | EXQUISA EXQ 1554

EXQUISA

New at Quick•Step® are the Exquisa laminate tiles, a collection of tiles with different tile patterns: the basic 40 by 120 cm plank consists of 40 x 40 cm tiles, 60 x 40 cm tiles or a multi-pattern. The Ceramic floor oozes personality, giving every classic interior a rustic appearance. The wide base plank, finished with a subtle joint, imbues your interior with a luxurious appearance.

TIVOLI TRAVERTINE | EXQUISA EXQ 1556

GREY VINTAGE OAK PLANKS | LARGO LPU 1286

ELEGANT & VERSATILE

Light and dark grey floors have been very popular for a number of years. Why is that? Grey is neutral but definitely not boring. It also combines very well with all (weathered) wood types, but also with classic warm colours and trendy bright tones. Courtesy of its versatile nature, a grey floor is often found in open homes where it is laid in adjacent spaces such as the hall, sitting room, dining area, kitchen, etc.

AUTHENTIC OAK PLANKS | LARGO LPU 1505

Karen (36) and Gavin (34) chose the Authentic Oak floor from the Largo collection by Quick•Step® for the ground floor of their new home:

"The extra wide and extra long planks (over 2 metres) made our living area more spacious. The matt greyed oak makes for an instant holiday feel."

The new greys

Peaceful effect

Go for a subdued oak floor and you get a timeless floor that keeps all your options open. The colour and matt finish of the floor contribute to this effect. Enhance the restful appearance with soft blue or brown as an accent colour. Or add some fun colours for that young and energetic feel.

A grey floor can be perfectly combined with a white wall and white ceiling. It's ideal for creating a basic interior where all your favourite furniture and different accessories will feel right at home. Try experimenting with colour by using an accent wall in a striking colour or a patterned wallpaper design.

Stability and harmony

Grey tones offer a soothing, cooling presence for a room. Grey is a good choice to create an atmosphere of peace and comfort.

LIGHT GREY OILED OAK | CLASSIC QSM 034

WARM TONES

COSY & INTIMATE

A warm floor gives every interior that homely feeling. Warm floors are especially suited for a TV or sitting corner, bedrooms or bathrooms. Give the walls and the ceiling a neutral basic colour for example. Enhance the feeling of comfort and safety by applying a dominant colour on one wall: terracotta, warm anthracite grey or dark violet. Cushions, curtains and the correct lighting add the finishing touch.

OILED WALNUT PLANKS | ELIGNA U 1043

With a brown floor, you can use an accent wall as well as subtle accessories. Brown perfectly combines with yellow tones, soft orange and red. And also with fresh white and green that provide an excellent contrast with the earthen appearance of the brown laminate floor. It's like creating your own spa.

TIP

CHOOSE YOUR FAVOURITE FLOOR WITH THE FLOOR ADVISOR!

Upload a picture of your own home interior and discover which mood the different Quick•Step® floors can create. The floor advisor helps you find your dream floor! Visit www.quick-step.com.

Looking for a floor that excels in design and technology? Select "Designers' Choice", the label awarded by Quick•Step® designers to floors that are unique and trendy.

VINTAGE OAK DARK VARNISHED PLANKS | ELIGNA U 1001

SECOND LIFE

Giving materials a second lease of life is currently all the rage. Floors with a weathered look give your interior a rustic character. Why not try chestnut planks with a weathered structure and subtle gloss variation, dips and notches. A sofa in ecru cotton, feather-soft wool plaids, a ceiling-high book cabinet, and atmospheric lighting, photo frames, ... combine to complete the picture.

DARK VARNISHED OAK PLANKS | COUNTRY U 1013

DARK VARNISHED OAK PLANKS | COUNTRY U 1013

WHITE...

Modern and sleek

White is the newest up and coming trend that's here to stay in floors, furniture and accessories alike. You can use different tones of white to create an ideal background that will show off all objects to wonderful effect. Objets d'art for instance, paintings, design furniture as well as brightly coloured accessories all stand out better. Choose dimmable lights if possible. Direct light in a predominantly white interior can produce quite annoying reflections.

Modern oak

A white finish transforms this classic Oak Passionata into a floor that suits any contemporary home.

White with character

Worn parquet floors in old houses used to be painted white or black. This would show off the worn structure to great advantage, giving the interior lots of character. Quick•Step® creates floors that conjure up typical character of years gone by. Character and visual impact can also be enhanced by combining a white stylish floor with black walls, doors and furniture pieces.

... & BLACK

Got a white kitchen and want a contrasting floor? A dark tile look could be the perfect solution.

LUXURIOUS & STYLISH

A black floor adds style to your home. If you are looking to give your sitting area an extra chic aspect, choose the *Dark vintage oak* (Largo collection). This will give your room a luxurious appearance, especially in combination with bright colours for your walls and ceiling, and a few eye-catching decorative features.

OUR SPECIALISTS GIVE ADVICE

QUESTION

Can you use laminate flooring on stairs?

ANSWER: Yes, of course. You can finish a new staircase or renovate an existing flight of stairs with Quick•Step® (p. 48-49). This applies to many different kinds of staircases: straight or spiral staircase, with or without stair nose ... Needless to say you can also finish a small set of steps in a room. You may want your stairs to match your classic interior or a more contemporary finish: no problem. Every stair profile is available in a design to match your floor. An additional benefit: finishing your stairs with Quick•Step® laminate floor is easy and affordable. If you're a bit of a dab hand at DIY, you can finish the job in a day, with a minimal amount of dust. And your stairs will match the rest of your home to perfection.

QUESTION

How do I keep my laminate floor scratch free?

ANSWER: Quick•Step® floors can take a few knocks. These floors are perfectly suited to allow your children to play around on. After years of research and investments in the area of durability, all our floors were given the 'Scratch Guard' label. This guarantees that Quick•Step® floors are up to ten times more scratch-resistant than floors without 'Scratch Guard'. Soft casters under office chairs and the right protection (felt or soft plastic) under furniture can also help keep your floor scratch-free. But rest assured: all our Quick•Step® floors are designed for a lifetime of living and playing!

VOGUE

CLASSIC, OAK INSPIRED
DESIGNS WITH REAL
SURFACE TEXTURE

Quick•Step® Vogue is a range of specialty oak inspired designs with unique wear resistant edges. They are solid, strong and bursting with character, thanks to the beautiful structure and the luxurious grain.

WARM AND INVITING

For a floor of true character and grain, try rustic oak grey.

White is most certainly a trend these days. In fact it's everywhere: in the design shop, computer store, fashion world up to and including the car showrooms! We were inspired by this trend and developed

a floor with the character and glow of painted white oak. The structure and finishing of the planks is based on old 18th century castle floors. This floor is also available in other colours.

FINISHING PROFILE FOR FLOOR AND STAIRS

The patented Quick•Step® Incizo® profile is extremely handy to give your floor and stairs that perfect finish. You can use one and the same profile for all finishing situations. Simply cut the Incizo® basic profile to the shape required using the supplied splitter.

BENEFITS OF QUICK•STEP® INCIZO®

1. MATCHING COLOURS

An Incizo® profile exists for every Quick•Step® floor in perfectly matching colours.

2. MULTIFUNCTIONAL

Five different applications with 1 product.

3. PRACTICAL AND ECONOMICAL

With the supplied splitter you create the profile you need to give your floor or stairs that perfect finish. Any spare pieces can be used for other purposes.

4. VERY STRONG

The profile is solid and extremely scratch-resistant.

WITH YOUR INCIZO® PROFILE YOU ARE FULLY EQUIPPED TO DEAL WITH ANY FINISHING SITUATION!

The splitter and rail are supplied together with the profile.

Follow the arrow on the splitter to cut the profile.

Incizo® laminate profile QSINCP(-)

> Dimensions: 215 cm x 4,8 cm x 1,3 cm

> Content: 1 Incizo®, 1 splitter and 1 plastic rail

HOW TO USE INCIZO® FOR YOUR FLOOR

Using a single profile you can create the finishing you need for your floor in no time.

How can I link two floors of the same height?

With the Incizo® profile, cut as an expansion profile.

How can I solve variations in height – from one floor to another?

Use the Incizo® profile, cut as an adaptor profile.

How do I finish my Quick•Step® laminate floor near a wall or a window?

The Incizo® profile creates a clean end profile.

How can I connect my laminate floor to a carpet, and have a beautiful finish?

Use the Incizo® profile as a transition to different type of floor covering.

WITH THE INCIZO® PROFILE YOU ARE ALSO READY TO FINISH YOUR STAIRS OR STEPS

Do you want to cover your stairs or steps in your living room with laminate? With Quick•Step® laminate on your stairs and the Incizo® profile you can produce a perfect finish.

Read the following pages for all the details about stair finishing.

YOUR STAIRS OR STEPS ALSO DESERVE A PERFECT FINISH

Do you want to finish a new staircase or renovate an existing flight of stairs? Quick•Step® has the perfect easy solution. Cover your stairs with Quick•Step® planks and finish in the style of your choice with the unique Incizo® profile.

WHY QUICK•STEP® INCIZO® FOR YOUR STAIRS?

> CAN BE USED FOR ANY KIND OF STAIRS

Straight or spiral staircase, with or without stair nose, old or new.

> FAST AND EASY

Get the job done in less than a day.

> A PERFECT MATCH

For a smooth transition between floor and stairs.

HOW TO USE INCIZO® ON YOUR STAIRS

If you're a bit of a dab hand at DIY, you can easily finish or renovate your stairs yourself.

Glue the plank with Quick•Step® One4All glue to the riser. The spacers ensure that sufficient space is left underneath to fit in the step.

Glue and screw the aluminium sub-profile on the step.

Apply glue to the sub-profile and the step. Spread out the glue across the sub-profile.

Place a plank on the step against the rising edge of the sub-profile. Push the plastic strip on the tongue of the plank (if you are using 7 mm planks, push the plastic strip into the Incizo® groove).

Apply glue to both sides of the Incizo® base.

Press the Incizo® profile onto the sub-profile.

DIFFERENT KINDS OF STAIRS WITH A SINGLE PROFILE

The Quick•Step® Incizo® profile gives you a whole string of solutions for your stairs.

Classic finish

Sleek and modern finish

Transition between the top step and the rest of your floor

Finish existing stairs with stair nosing

Laying instructions and installation video on www.quick-step.com

LAYING YOUR FLOOR WITHOUT HASSLE

Laying a Quick•Step® floor is easy thanks to the patented and world-famous Uniclic® and Uniclic® Multifit click systems.

Both systems are very user-friendly, a lot faster and a lot more solid than other systems. It makes laying easier, even in the smallest corners of the room.

HOW DOES IT WORK ?

You will find yourself fitting your floor in a "click", very swiftly and with the greatest ease.

> METHOD 1: ROTATE AND CLICK

Click the panels into each other along the long side and the short side.

> METHOD 2: HORIZONTAL INSERTION

Ideal for awkward corners. Unlike most other systems, Uniclic® panels can also be joined together horizontally. This is essential when you get to install the last row of panels or in places where it is difficult or even impossible to rotate the panels (underneath door frames or heating units, for example).

**PURPOSE-DEVELOPED
FOR THE EXQUISA
RANGE**

NEW

> METHOD 3: SLIDE AND CLICK

Click the panel into place along the long side, slide the short side of the plank against the previous panel and press down.

The new Exquisa range, with long (± 120 cm) and extra wide (± 40 cm) planks are installed just as easily and swiftly. Thanks to the Uniclic® Multifit system on the short side of the plank, the wide Exquisa planks are easily clicked together using this third method (in addition to method 1 and 2).

KEEPING YOUR FLOOR IN **TOP CONDITION** IS EASY

Quick•Step® laminate is not only easy to clean, it's hygienic too. The sealed surface of the laminate helps against allergies.

We recommend cleaning your floor dry using the Quick•Step® microfibre mop. You can also use the mop slightly moistened to clean the floor every now and then.

QUICK•STEP® CLEANING KIT QSCLEANINGKIT(-)

All Quick•Step® floors are low-maintenance. They stay clean with the purpose-made Quick•Step® cleaning kit. Practical and easy to use, it comes with a mop holder with adjustable handle, a microfibre mop you can wash and the Quick•Step® cleaning product. You can use the mop dry or slightly moist.

Also available individually:

- > **Quick•Step® Cleaning mop** QSCLEANINGMOP
- > **Quick•Step® Cleaning product 750 ml** QSCLEANING750
- > **Quick•Step® Cleaning product 2L** QSCLEANING2000

Jane Aston
Schoolteacher

"I keep my floor dust free by using the Quick•Step® microfibre mop.

It's very quick to do and gives an instantly smart result. It's a dry cleaning so there's no mess - especially as all the dust goes directly onto my mop.

Sometimes I use water to clean the floor slightly moist - just a little is enough. I use the Quick•Step® cleaning product, especially after the kids have been out playing and come back into the house with muddy shoes! It brings out the original colours of my floor, and shows off its true character."

QUICK•STEP® FORCE STICK QSFORCE030

Stubborn stains (permanent marker, shoe polish, etc.) are removed in no time with Quick•Step® Force.

Content: 30 ml

QUICK•STEP® MIX & FIX QSMFIX(-)

Light damage is easily repaired in the original floor colour using Quick•Step® Mix & Fix. Available in 3 versions: dark wood, light wood and non-wood designs. With one version you can make 24 different colours, to restore the damaged plank quick and easily.

Content: 1 tube of repair paste, 2 bottles of pigment and a spatula

WHY QUICK•STEP® GIVES YOU A 25-YEAR WARRANTY*

UP TO 10 TIMES MORE SCRATCH-RESISTANT

The top layer of your floor has extra protection, allowing you to enjoy your beautiful, natural-looking floor for even longer.

UNICLIC® & UNICLIC® MULTIFIT: EASY TO INSTALL AND EXCEEDINGLY STRONG

SPLASH WARRANTY

The water-resistant glued base plate and the tensile strength (pre-tensioning) of our click systems provide excellent protection against surface moisture, such as spilled drinks.

SUITABLE FOR FLOOR HEATING

Choose the right Quick•Step® underlay. Ask your dealer for specialist advice.

RESISTANT TO CIGARETTE BURNS

If a lighted cigarette drops onto your floor and stays there it won't leave any trace behind.

HYGIENIC SURFACE EASY TO MAINTAIN

The dirt cannot attach. So it's really easy to clean.

LIGHT AND SUN-RESISTANT (EN438-2,16/BL REF >6)

A Quick•Step® floor does not discolour when exposed to normal levels of (sun)light.

IMPACT-RESISTANT

Quick•Step® makes its top-quality HDF core boards in-house. Combined with the resistant top layer, your laminate has the best possible protection against falling objects, stiletto heels, etc.

SOLID SOUND

The hard core boards used for our floors have been optimised for everyday use, producing a solid, pleasant sound in combination with a Quick•Step® underlay.

ANTISTATIC

An end to annoying electrostatic discharges. Every Quick•Step® floor has been subjected to a unique, permanent anti-static treatment which also sees the floor attracting less dust. This technology has been patented by Quick•Step®.

A HEART FOR NATURE

With Quick•Step® you are bringing an environmentally-friendly floor into your home. The PEFC certification guarantees that all the wood used to manufacture our HDF core boards is sourced from sustainably managed forests. In addition, Quick•Step® also obtained its Environmental Product Declaration (EPD). This internationally recognised certificate indicates the environmental performance of Quick•Step® laminate floors throughout their entire life cycle. Ongoing monitoring and improvements brought to its environmental impact see Quick•Step® actively and tirelessly contributing to a better living environment.

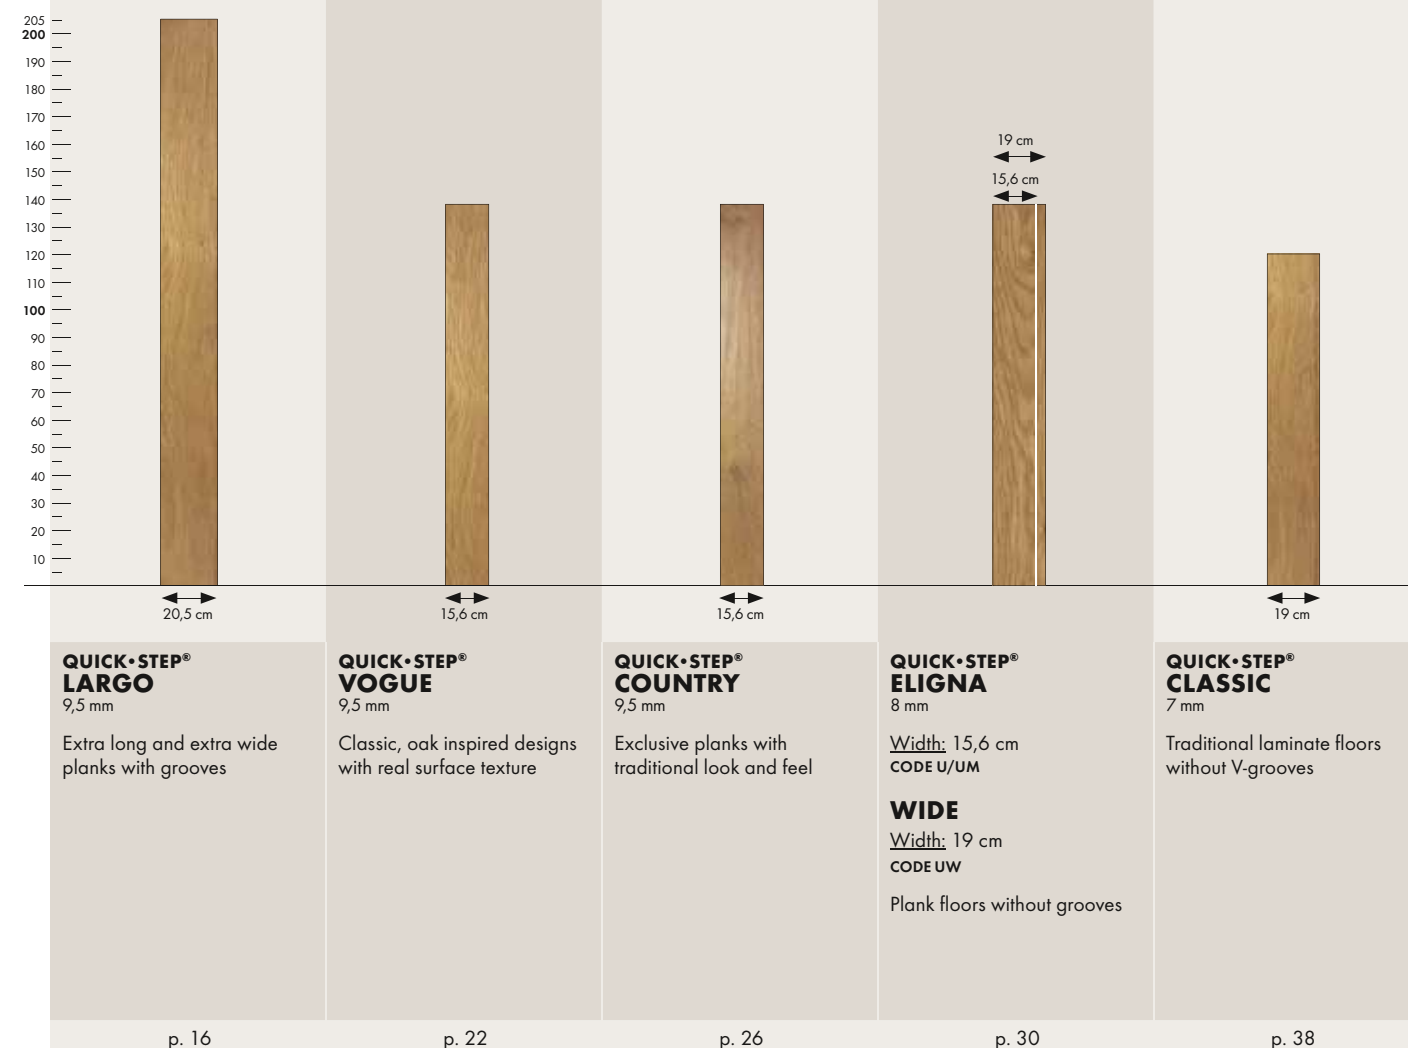

*Warranty

The use of solutions other than genuine Quick•Step® solutions can damage your Quick•Step® floor. In this case the warranty offered by Quick•Step® is no longer valid. We advise you to only use Quick•Step® solutions that are especially designed and tested for use with Quick•Step® floor panels.

Classic: 20 year.
