INTRODUCING Dr. Lew Bayer

THE POWER OF ONE

Dr. Lew Bayer, internationally recognized as the leading expert on civility at work, believes that "... even through our silence we are accountable for the actions and intentions that are at the root of uncivil action, regardless of the intention, and regardless of whether the act is great or small...". We have within us to change our lives and the lives of others.

All it takes is on act of one kindness, one moment of purposeful pause, one moment of courage or one thoughtful decision and we can reap the many measurable benefits of civility. Each of us has the power through our words, actions and thoughts to change the world for the better.

Dr. LEW BAYER
INTERNATIONALLY-ACCLAIMED
CIVILITY EXPERT
