Why should I take this workshop?

This is a preparatory workshop with plenty of drill and practice for maximizing your score..

It is a MUST if you plan on taking SAT on August 24, 2019

Prepping for SAT is like prepping for YOUR SPORTS TEAMS...

You need to practice ..

You need to develop muscle memory.

SAT is no different ... It is a different kind of "remembering and problem solving" than studying for an A in a math class.

Knowing is not enough!

Getting the correct answer is not enough!

You have not only to get it right but get the correct answer figured even as you read the question. SPEED and ACCURACY are KEY!

That is what this SAT Prep will give you.

Speed and Accuracy

It will show you the path...

It will teach you tips and techniques on the SAT Math...

Not just that ... it will teach you WHAT TO DO AND WHAT NOT TO DO WHEN TAKING THE TEST. You need that edge to maximize your score!

FAQ for Summer SAT Prep Workshop

Question: I am an 8th grader. Will be in 9th grade in Fall. Should I be attending this now?

Answer: Yes ... It is never too early to start this preparation. This is like taking a math class. Except you learn by doing problems. You will learn the concepts as you try to solve the problems.

Question: I have not had a Geometry class yet. How can I expect to get much from this Prep session?

Answer: You have been exposed to a lot of Geometry and Measurement by now. This type of Q & A will trigger you to think and search for answers using the resources you have. In that process (as you make errors) your brain power will fire to make you a good problem solver.

Question: Should I sign up to take SAT in August?.

Answer: Absolutely. Preparing for a test like SAT requires more than knowing the material. It requires confidence in your ability to do well on this test. It also requires being familiar with the test and getting the experience of **knowing exactly what to expect**.

Question: Is it possible to develop confidence to score well in a high stress test like this?

Answer: Yes! Confidence is the outcome or by product of Competence. Competence in mastering the content! This test prep series will increase your competence in tackling the content and the strategies. You shall, with **regular attendance** and coaching master the form and format of providing the responses quickly and correctly.
