Product Warranty

- **10 years warranty on the shell structure of the SPA**
The shell will maintain its structural integrity and configuration and be free of any water loss due to a defect in the shell
- **7 years warranty on the shell surface of the SPA**
The manufacturer provides to the user of the spa a 7 years warranty against blistering or delamination of the spas shell
- **2 years on the control box/display module and pumps**
The manufacturer warrants the topside controls, spa control system, heater and pumps against defects in materials and workmanship or any defect for two years. According to the electrical components this warranty is not given on fuses, bulbs and gaskets.

Superior Insulation

Effective insulation is extremely important for hot tubs in order to reduce running costs to a minimum. Our polymax insulation in all Superior Spas utilises thermal gains from the spa's equipment, collecting any waste heat energy and reflecting it back into the plumbing and shell, whilst keeping out the colder outer air.

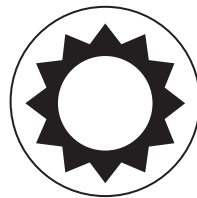

Weatherproof Plastic Cabinet

Every Superior Spa comes as standard with our award winning maintenance free cabinet.

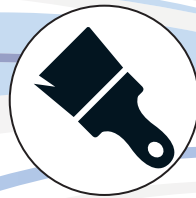

Just an occasional wipe over will keep your Superior Spa looking as good as new for years into the future.

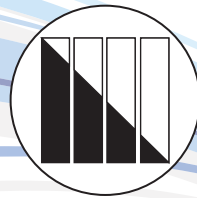

Water proof

UV & weather resistance

Does not require painting or surface treatment

Not prone to discolouration

Green Energy Retention System

At Superior Spas we bring you one of the most energy efficient retention spas in the industry. Our Shell with its ABS backed acrylic and its two part Poly-urethane system maximises the heat retention to save you money on your monthly energy bill.

This along with our 5"-3" foam filled thermal cover provides even more savings

Why a Superior Spas Shell is Better

- Super quiet operation because the sound insulation is actually part of the shell—not just a sprayed on afterthought.
- Industry leading insulation properties, the entire shell system insulates so reducing energy costs and putting money back in your pocket.
- One of the industries best shell warranties for years to come..
- Eco friendly – Our Superior Spas shells are ultimately bio-degradable and hazard neutral, we are proud of our lead in producing genuinely clean, green products.

Superior Jets

Hip and Waist Jets

These exclusive waist jets are in all the right places to assist in breaking down fat around the hips and helping you to tone your body.

Their hydro-massage can also be beneficial in helping rehabilitation following hip injury or surgery.

Superior Master Jet

A regular foot massage along with reflexology helps in promoting physiological as well as physical health. A foot massage treats pains and aches such as headaches, migraines, neck pain, lower and upper backaches.

Neck Massage Jets

We have designed these fantastic neck and shoulder jets for the ultimate stress relief massage.

Its like having your own personal masseuse.

Superior Spas Controls

Superior Smart Touch

A unique user interface and an engaging new way to control your spa equipment and accessories!

No buttons, keys and overlays! Mode and function selection wheels, all-on or all-off one touch activation key of last used settings, interactive display icons and on-screen messages are all elements of the Superior Smart Touch user interface designed to let spa users interact intuitively with their spa and its value-added accessories.

- **Easy Wheel selection menu:** the easiest way to set up your spa. To select a mode (sanitization, audio, colour, spa, settings), slide the left wheel up or down until the desired icon menu is highlighted in the middle.
- **Notification icons:** Notification icons at the top right-hand side of the screen show the status of connected additional accessories (audio system, wifi, in clear system)

Superior Smart Colour

The Superior Smart Colour is built with all the great features you've come to love in the Superior Spa Touch but in a smaller package. It is discreet, compact, and unobtrusively beautiful. Save space without losing out on functions.

- **Bright Colour Screen** With a bright, full colour display, We have created the seamless graphic interface spa users have been waiting for!

Superior Easy

The Superior Easy brings all the features you really need to one keypad. Compact, with a big LCD screen; bright enough to be seen throughout the day; simple enough to use in the middle of the night; affordable, yet solidly built.

- **Compact full-function keypad:** All settings and spa function icons available at a glance to set your spa in the blink of an eye.
- **Bright LCD screen:** Bright and large, the LCD screen allows an easy setting of the temperature, winter modes and other functions.
- **Affordable:** Everything you need in one back to basics solution.

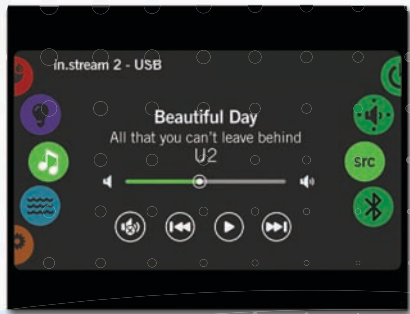

Additional Options:

- **Wifi:** connect your spa to the Internet with Wifi connection to be able to control your spa from anywhere in the world.
- **Superior Spas Automatic Water Treatment:** Even if your schedule keeps you away for weeks, you are sure to enjoy a clear, clean and soft spa water experience when you return.

Superior Sound System

Streamed From Your Spa – Your Favourite Music Never Sounded So Good!

Superior Spa Touch

Our Spas which come with the Superior Spa Touch include our fully integrated audio system. Its interface features full control of audio sources, volume and settings, and display of song tag information. They also include 2 pop up and 2 built in speakers.

Designed to deliver clean, crisp rich sound in the highest quality performance expected by music lovers.

Superior Smart Colour/ Superior Easy

Our Spas which use the Superior Smart Colour and Superior Easy come with a simple Bluetooth amplifier and 2 built in speakers.

Simply connect your phone/tablet and play your favourite music via our built in Bluetooth amplifier.

Sit Back and enjoy!

Superior Spas Automatic Water Treatment System

Water so clear you'll want to touch it, you'll need to feel it!

Our automatic water treatment system generates and releases bromine into the water to eliminate microbiological contaminants such as waterborne bacteria, algae, and organic matter given off by spa bathers for a relaxing and enjoyable bathing experience every time the spa is used.

You'll get clear, clean and soft water every time you use your spa and you will never need to add any other harsh chemicals to the water of your spa.

Even if your schedule keeps you away for weeks, you are sure to enjoy a clear, clean and soft spa water experience when you return.

*Optional Extra

Superior Dynamic Jet Sequencer

Our Dynamic Jet Sequencer lets you choose from 9 different massage settings in one of our spas loungers or seats.

Simply select your favourite program and desired speed and the jets will pulse up and down your body.

Our Dynamic Jet Sequencer adds a totally new and highly effective dimension to any spa. This pulsating movement up and down your body provides a unique massaging experience.

A Hydro massage tailored just for you.

*Optional Extra

Aromatic Therapy

The benefits of inhaling the fragrance of distilled essential oils has been acknowledged for many centuries.

Superior Spas have taken this ancient art right up to the modern day with our exclusive button system, releasing essential oils directly into the water of your spa.

Smells are one of our most evocative senses, triggering memories and changing perceptions.

Aromatherapy Benefits

- Enhance Your Mood
- Aid Relaxation
- Reduces Stress
- Helps With Digestive System

All at the tip of your fingers!

*Optional Extra

Superior Smartphone Application

Control Your Spa From Anywhere In The World

The Superior Spas Smart Phone Application allows immediate access to your spa from anywhere in the world. It transforms your iOS or Android smartphone or tablet into your ultimate wireless remote control, enabling you to control all aspects of your spa, from your fingertips.

Plug & Play

The simplest way of installing the Spa

Superior Spas has designed a range of Plug&Play spas. These products are extremely popular for people who do not wish to pay for an electrician to do the wiring to their property.

The cable length is 3 metres long so you will need to locate your spa within 3 metres of your outdoor socket

Features:

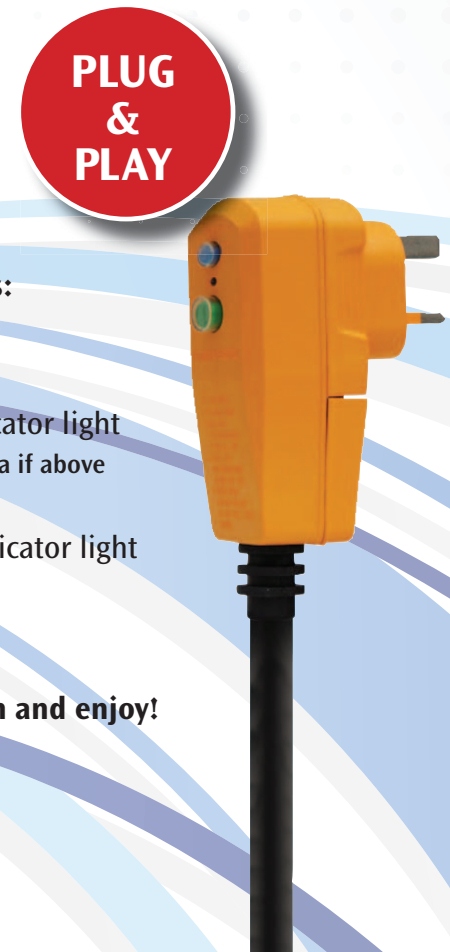

- For outdoor use: IP65
- Two pole switch-off
- Rated voltage: 230V
- Rated current: 16A

FI Protected Plug Test in Four Easy Steps:

1. Insert the plug into the outdoor socket.
2. The indicator light should turn red.
3. Then press the “TEST” button. The indicator light should disappear. **WARNING! Do not use spa if above test fails. (Indicator light doesn't turn red.)**
4. Press the “RESET” button again, the indicator light should turn red.

The spa is now ready for use.

PLUG & PLAY: Make it easy... fill, plug in and enjoy!
