

Safety Protocols

As of right now the league will go on as scheduled. If at any point, there are further restrictions placed on group gatherings that would preclude us from having the league then it will be suspended or cancelled. As of right now the number is 250 for gatherings, which we will always be under. That being said you are urged to leave all non-essential spectators home along with any spectators that are feeling ill, immunocompromised or elderly. The fewer spectators will allow us to turn games over more quickly and lessen contact between individuals.

For our part we will be taking the following steps:

- At tip-off the doors will be locked and when the game ends, the team or teams that is finished along with all spectators will leave the building. As they are leaving, we will wipe down all hand-rails and door knobs and pick up all water bottles and trash, then allow the next team or teams in.
- Basketballs will be switched out after each game and replaced with a new ball or one used but having been disinfected.
- We will make sure hand sanitizer, disinfectant wipes and/or soap are made available.

Because of these extra steps. Practices will be shortened to 50-minutes to allow for getting everyone out and give time for the next teams come in. We will NOT leave a bag of basketballs out for every team to use. For practices, coaches should bring only a couple of basketballs to use for their team only and disinfect them after use and take them with you. ONLY coaches should bring basketballs in and limit it to 2 per team. We will provide game basketballs.

As always, parents have the ultimate say in all decisions that effect their families. If parents rather their child not participate they have the final say in that regard. Please just communicate this to your coach to make sure your team will have enough players to compete.

Because each family was given raffle tickets to recover all of their costs, and because the vast majority of the costs for this league are fixed and already paid for, there are no refunds. Uniforms, insurance and gym rent are all paid in advance and the officials have to be provided with some compensation regardless if the league continues or not.
