Specifications

Attribute	Description
Physical Form	Red Liquid
Odor	Soapy
Solubility	Complete in Water
Foam	Low-Moderate
Viscosity	Water-like
pH (typical)	13.5-14.0
Flash Point	Not Applicable

Dilution Ratios

Use	Dilution
Heavy	10:1 - 20:1
Moderate	20:1 - 30:1
Light	30:1 - 50:1
Brighten Aluminum	1:1 - 20:1

DOT Classification:
Regulated

Available In

Part #	Size
142537	5 Gal
142535	55 Gal.
142539	Bulk
142597	Kit 2 x 6 gal pails

DYNACLEAN & BRIGHT

Heavy Duty

Tech Data Sheet

Dynaclean & Bright was specifically designed to meet two primary objectives in fleet cleaning: Aluminum brightening and road film removal. It is an effective 2nd-step in the 2-step wash process, but it makes a great one-step alkaline detergent for cleaning trailers.

Benefits

- Brightens aluminum without any acids
- Excellent one-step fleet wash detergent
- Concentrated for maximum savings
- Easy rinsing
- Biodegradable

Applications

- Use through automated wash systems or pressure washers
- Use with Blue Fusion on farm equipment
- Excellent for soot trails on trailers
- One-step soap for use on white painted tractors/trailers
- 2nd-step soap for touchless truck washing
- Acid-free alternative for aluminum brightening

Precautions

- Do not use on anodized or mirror polished aluminum.
- Do not allow to dry before rinsing.
- Test for colorfastness on an inconspicuous area when using in strong concentration on paint.

Note: Cleaning effectiveness is affected by: temperature, concentration, dwell time, water hardness, and soap application pressure. Soap concentration may be adjusted to compensate for changes in these conditions.
