I am a *Trade Qualified Metal Worker* and Certified Workplace Trainer and Assessor. I have been sharpening knives for over 30 years. I offer a mobile knife sharpening, training and demonstration service. I use a Sharpening Stone (with Canola Oil or water/more suitable for the food industry) followed by Honing with a Steel and Quality Leather Strop *to fine tune the edges*. All knives are sharpened professionally by hand to remove the risk of over-heating the steel and thus reducing the temper of the steel. Prices are as follows:
