SAS Oak-102
Titanium & Platinum

Heirloom Collection

This collection is very special because the wood for these projects is sometimes the last remaining memory of a family member or family farm or homestead. Items made from walnut, ash, oak, pine or other recovered wood become keepsakes and reminders of times past.

NEW
SAS Building A Bottle Stopper, BS1
Every one is unique

Facing page is oak from the first building SAS Institute built. It was demolished in 2004.

This page. Walnut from two family farms near Charlotte, NC on left, burl from Suggs farm above
