

4. Traffic & Highways

Team tasks:

- Traffic surveys to identify actual traffic volume levels, speed, direction and type of vehicles.
- Monitor HGV volumes, direction and an indication as to journey start and end points. Local / non local?
- Forecast future traffic volumes.
- Review of best practice traffic calming measures from other villages
- Liaise with Oxfordshire County Council (Highways), Thames Valley Police as to traffic issues and policing.
- Conduct more thorough survey of village to gauge public opinion and concerns with respect to traffic and possible solutions.
- Investigate how the use of public transport could be encouraged
- Investigate alternative public transport solutions should current bus service be scrapped.

• Note: it is hoped that some solutions to our existing traffic problems are identified, these could be implemented whilst the plan is being produced.
