This is a stand alone course which has no prerequisites to study. You receive a set of Chakra Tuning Forks, and a printed manual on how you can use these forks to balance and heal the human energetic body systems and workbook for practical exercises to complete during the training.

This healing system is accredited and insurance approved and qualifies you to professionally practice the frequency of auras and chakras™

You will explore meditation techniques, distance healing, self therapy and how to conduct one to one sessions for your clients using a multitude of techniques.

You will be required to complete a body systems e-book at home to demonstrate your knowledge of the basic body systems and also read and agree to our codes of conduct.

There are 3 case studies to complete with 2 follow ups on each person .

The cost of this course is £300. Student kits are purchased 30 days prior to the course dates and therefore no refunds can be given after this time.

We are a training facility with a difference. We encompass all learning styles and balance professional teaching with a friendly, relaxed and welcoming environment. We can support your business development with our business and management courses and also offer networking events, and continued professional development workshops. We are based in South Yorkshire, and offer classes in other areas around the UK. Our distance learning courses retain a personal approach and make you feel part of the organisation no matter where you are. You wont regret studying with us and becoming part of our growing network of holistic practitioners.

Group sizes are restricted to 6 and included in your training is a 1 hour exit consultation where your case studies and final a assessment are reflected upon. If you are travelling from another area to attend this training, then the consultation can take place using skype.
