**2018... Going Beyond**

Thoughts of this New Year bring excitement to our heart as we reflect on the spiritual seeds of intention and purpose that have been planted individually and collectively by ourselves and our ONE-TLC Friends & Family.

**'Something is in the air' and it feels Grand!**

We sense this year as the time that spiritual seeds will sprout. Thus revealing new shoots, and blooming accordingly, as we have 'allowed' these seeds their individual and unique cycle of evolution. This realization may occur very differently than what was experienced in the past.

**Are you ready for the 'NEW'?**

An acquaintance recently commented; There is so much going on in my life right now, there seems to be a challenge in every area of my life, What is going on? and What can I do?

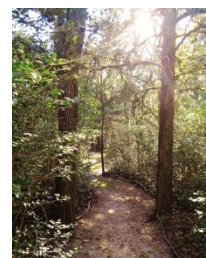

I am sure there are many of us experiencing tremendous change right now... it can almost seem surreal at times.

All change is necessary and beneficial for personal growth and evolution. It is 'how' we react to change that determines how rapidly our beneficial outcomes come to us.

Accepting and Embracing this situation as 'ordered' by You... is the first step. Then giving Thanks and Appreciation for the situation, people, and circumstances involved will lift you to new levels of perception and understanding; this also allows for a natural energetic resolution to occur.

## Message of the Month

The following was channeled by Jackie  
at a previous ONE-TLC Board Meeting on February 2, 2015:

### Soul Aspects

*"Each one of us on this planet now, in human form, has chosen to be here at this time as the culmination of many lifetimes comes to a point. The point represents the integration of all of one's life aspects; those parts of oneself that have been separated from the ONE. In bringing together these aspects, it's necessary to let go of all energies that represent or are held by non-serving aspects. They were all there to help serve a purpose in the discovery of who You really are or the ONE really is. As one goes deep within, one discovers more and more of the True Self and these non-serving aspects are no longer necessary as their role is completed and at times can just hold one back, keep one stuck in old habits and beliefs and old patterns of thinking that do not harmonize with the True Self. Give thanks to these aspects for being with you and serving their role in your discovery of Your True Nature. It's time to let go of the need of these aspects and become the whole of who YOU are."*

So Be It!
