

L'Image, Inc.

Combine European inspiration, American talent and universal imagination. Add to this mixture experience, friendly staff and an ability to offer the latest in personal care products and services to clients. The result? L'Image, Inc., a full-care salon and day spa.

As one of the first beauty facilities to offer a full-service salon experience in Dallas, L'Image combines a personal, friendly touch and a relaxing, tranquil decor. With help from an on-staff personal-care trainer, L'Image's staff can offer cutting-edge treatments, services and products. All of this means a unique and fulfilling spa experience for you.

"Our facility is exquisite," admits Dayton Mast, president and owner of the nationally acclaimed salon and spa. "And the nice thing is that you can go home and sleep in your exquisite bedroom. You don't have to pay \$100 dollars or more a night for a bedroom, like you would at a destination spa."

Because of its background and facilities, L'Image is the only Dallas spa/salon (and only one of 200 in the United States and Canada) that is a member of the prestigious organization Intercoiffure Mondial. This exclusive international society employs careful screening processes for its membership. Salons and spas are invited to join based on experience, services offered and client satisfaction. L'Image has also been named by Redbook magazine as one of the top 42 spas in the United States.

L'Image's menu of services reflects why it's a popular place for a day spa

treatment. Whether you need a simple make-over or an entire body revitalization program, you'll find it at L'Image.

If you have some time to spend, choose from rejuvenating packages such as the Jour Complete or Demi-Jour, both of which feature a relaxing

massage, invigorating facial, delicious lunch with herbal tea and a makeup application to help bring out your best qualities. Even if you're pressed for time, you can still enjoy the L'Image experience. Consider the L'Express package, which offers a facial, body massage, shampoo (using the quality botanical Le Mast Produit hair care line) and set. Or choose other self-care services. Facial treatments offered include deep pore cleansing, paraffin or seaweed masks, collagen treatments and peels. Body wraps are also available; you can choose from polishing treatments, masks, wraps,

massages and scrubs. And L'Image offers additional personal-care services including leg and face waxing, eyelash and brow tinting, makeovers, manicures and pedicures.

According to Mast, with an expanded menu, clients will have even more services to choose from in 1996; and if there is a specific treatment you want but can't find, L'Image will accommodate.

Whatever treatment you choose for your L'Image experience, you can rest assured that the staff is sensitive to your schedule. "When we say our treatments last one hour and 15 minutes, you're in and out in one hour and 15 minutes," Mast says.

Another feature of the L'Image day spa is a wonderful on-premises gift shop, Cosmetique Diffusion. This boutique features unique gifts, fragrances, the latest hair accessories, fashion jewelry, skin care products and special hair-care products.

"There can be some down time during the spa experience," Mast explains. "With Cosmetique Diffusion, clients can relax and do some pick-up buying. It makes for a unique and time-saving experience."

So, if you're looking for that day spa experience that combines pampering with

experience and innovation, L'Image is the choice!

Prices are \$30-\$315. L'Image Day Spa is at 528 Village on the Parkway. Additional salons are located in Highland Park Village, Plano and Arlington. A new day spa will soon be open at Preston Park Village in Plano. Call (214) 934-8080. **RC**
