Oceans, Seas, Rivers And Lakes

Wet Lizards !

Hello to our Leaping Lizard families! This week we dived into oceans, seas, rivers and lakes! Our class was able to make our very own ocean out of slime and we even made a fishy banner to hang for all to see. Float and sink projects throughout the week allowed us to end this month referencing our very first week of water safety and prepared us to enter next month to discuss fire safety and how to protect our little bodies from fireworks.

Next week we will be making fireworks in a jar and doing sweet rocket experiments while simultaneously exploring our primary colors. Due to a few concerns about the homework folders we will be sending out an announcement to re-explain and make a few changes that will hopefully make things a little easier for our parents and students. Per request, we will also begin a daily behavior chart starting this Monday June 29th. ***Enjoy Your Weekend And Stay Safe During Holiday Festivities!***

Our goal in our classroom is to aid in the growth and development of our students through love and education as we adjust through these difficult times, we learn through play while tending to the needs of each individual child.

-Ms. MiChon & Ms. Sade
