The perfect floor designed for your interior

Design & Technology of today

Designing a Quick-Step floor is a process in which technology and creativity go hand in hand. The designers create a very wide variety of floors, each with their own natural character. That is why we work down to the smallest details, so that you can choose from an unparalleled range of designs.

Quick-Step® makes it easy for you

At Quick-Step we don't just offer a product, we offer a total solution. From floors, to skirting boards and stair solutions, underlays, finishing profiles and accessories, our range of products guarantees a perfect result every time.

As the inventor of the Uniclic® Multifit for Livyn click system, Quick-Step also ensures a hassle free installation.

The system enables you to click the planks together in no time using three different methods, including drop-down.

A heart for nature

At Quick-Step, we are conscious that the world in which you want to live doesn't consist of just stylish interiors. It is equally a world that radiates respect for our natural environment.

That is precisely why we continually do our best to keep the environmental impact of our products and processes to a minimum.

A lifetime of pleasure

Quiet, soft and waterproof

Quiet, soft and 100% waterproof: with

Quick-Step Livyn you get all the advantages of vinyl. These warm, comfortable floors are a pleasure to walk on, even barefoot. Thanks to their excellent water-resistance, Livyn floors are also the perfect choice for wet areas such as bathrooms or kitchens.

Revolutionary scratch and stain resistance

Enjoy your Quick-Step Livyn floor for many years thanks to the revolutionary sealed top layer with

Stain and Scratch Guard technology. This layer ensures superior protection from scratches, stains, dirt and scuff marks.

Perfectly natural look

The Quick-Step Livyn collection includes a wide range of natural looking wood and stone designs with realistic bevels and structures that match the specific character of the design. Add to this the extra matt finish and the floors are almost indistinguishable from real wood and tile flooring.

NEW

PULSE

Don't call me vinyl.
I am Pulse, discover my
wide looks!

Walk on natural beauty, **silent and soft under foot**. Our new Quick-Step Livyn Pulse collection sets new standards and is progressive in many ways. Pulse exists out of unprecedented **long,**

wide planks with perfectly matching structures. Each plank has its own, incomparable wood structure and therefore seems more lifelike.

What's more, the new Livyn Pulse floor stand out by its **natural plank variation**. This design technique adds lifelike colour variations with shades and tones, enhancing the natural look of the floor.

Inspired by the latest trends in architecture, fashion and design, our in-house design team developed **twenty new decors** with a wide range of styles - from vintage and reclaimed to rustic and smooth.

Pulse combines the best of both worlds: **ultimate ease of use** and **a lifelike, durable design**. The sealed surface keeps out moisture and dirt, while the joints and structures make the planks seem quite realistic.

Create your own living space

A beautiful interior starts with a good foundation. The floor could be considered as the fifth wall and therefore it should not be overlooked. Whatever your style, whatever your room, Quick-Step has the right floor: from light, clean floors to warm brown classics and even reclaimed floors with knots and cracks.

BACL 40127

AMCL 40035

BACL 40031

PUCL 40075

Did you know that Quick-Step Livyn floors can **withstand high changing temperature conditions**? It is the most stable vinyl product, allowing it to be installed floating in any room, even a conservatory. What's more, you don't need transition profiles between rooms, resulting in a clean, finished look.

The details make the difference

Each vinyl floor has its own story and a unique look and feel. The Quick-Step designers carefully select the structure, treatment, finishing and bevel, perfectly in line with the character of each floor design.

The icons indicate the specific design characteristics of every floor.

AMCL 40035

Structure

Elegant wood structure

A subtle surface texture with a fine grain structure that gives a wood effect with a very natural look and feel.

Natural wood structure

A surface texture where the grain, knots and cracks that are visible in the design can also be felt in the surface structure. Just like real wood.

Intense wood structure

This distinct structure has varying depths and gloss levels accentuating the knots and cracks. The design and surface structure is more pronounced than the natural wood structure.

Stone structure

A surface texture that realistically displays the structure of a stone pattern.

Treatment

Brushed

A surface effect that gives the appearance of brushed wood. The brushed treatment adds depth and authenticity to a Livyn floor.

Saw cut

This effect gives the impression of rough sawn wood thanks to the visible and tangible saw cuts.

Finishing

Matt finish

A matt gloss giving the floor a very natural look.

Bevel

Rustic bevel

Distinctive dark coloured bevel emphasising the rustic and reclaimed character of the floor.

Modern bevel

The bevel defines the plank edges resulting in a clean, modern look.

STEP 1 INSTALLATION

Install your floor without a hassle!

1 Easy installation thanks to the drop-down click system

Our Uniclic® Multifit click system is developed especially for Livyn floors, making them fast and easy to install. The improved drop-down technology provides extra strength thanks to the vertical and horizontal locking.

2 Install Livyn on underfloor heating and cooling

Thanks to the excellent thermal conductivity, Livyn floors are suitable for installation over low temperature underfloor heating and cooling.

For more information: visit www.quick-step.co.uk

3 Renovation friendly

Livyn floors are thin and flexible so they can easily be laid on top of existing, level floor coverings. This will save you a lot of removal effort and let you renovate your space without any hassle.

Installation tools

Install your vinyl floor in an easy and professional way with the handy Quick-Step Livyn installation tool and knife.

Quick-Step®
LIVYN KNIFE

Quick-Step®
LIVYN INSTALLATION TOOL

Quick-Step Livyn floors can be installed in two different ways: floating or glued down.

For a perfect installation, check out the installation videos on bit.ly/ytquickstep

Simply choose click or glue

CLICK

Installing your Livyn floor is easy thanks to the patented Uniclic® Multifit for Livyn click system. A good underlay has a major impact on the final look, quality and comfort of your Quick-Step Livyn floor. Use a Basic underlay for all common installations. For situations with high temperature variations (e.g. conservatory), use the Livyn Sun/Heat underlay.

- A Quick-Step underlay levels and helps to prevent small irregularities.
- It provides excellent acoustic insulation and reduces creaking noises when you walk across the floor.
- Suitable for floor heating and/or cooling.

Quick-Step® **BASIC UNDERLAY**

QSVUDLB 15

Contents:

1 box = 15 m²

Thickness: 1 mm

Quick-Step® **SUN/HEAT UNDERLAY**

QSVUDLSH10

Contents:

1 box = 10 m²

Thickness: 1,5 mm

GLUE

The Quick-Step Livyn Glue+ ranges can also be glued down. In conjunction with the glue specialist Soudal, Quick-Step developed a high quality glue especially for Livyn.

- Spreads easily and guarantees fast adhesion.
- Damp-proof.
- Suitable for floor heating and/or cooling.

Quick-Step® **LIVYN GLUE**

15kg: QSVGLUE 15 = for +/- 50 m²

6kg: QSVGLUE 6 = for +/- 20 m²

Quick-Step® **LIVYN TROWEL**

QSV A2

The Livyn glue trowel ensures the perfect glue consumption per m². To be ordered separately.

For the best results, whether clicking or gluing, always start with a level subfloor. Make sure it's completely dry and free of dust and grease. **For more advice about preparing your subfloor, visit www.quick-step.co.uk or your local Quick-Step retailer.**

STEP 2 FINISHING

Finish perfectly

Finish your floor perfectly with the Quick-Step skirtings and profiles.

to finish heating elements
and pipes. Available in
two diameters: 15 mm or
22 mm.

STEP 3
CLEANING

Keep your floor in top condition

Quick-Step®
CLEAN FOR LIVYN
QSVCLEANING750

Specifically developed for Livyn, Quick-Step Livyn Clean takes care of the daily maintenance of your floor. It protects the special top layer that helps to preserve original beauty and natural matt look of your floor.

- ☑ 100% recyclable
- ☑ We use carefully screened raw materials
- ☑ We invest in energy-efficient production

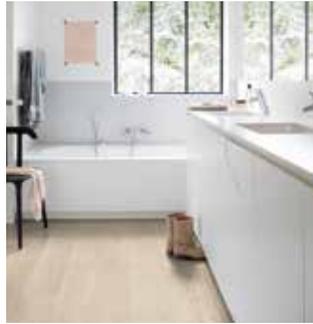

At Quick-Step we're committed to reducing our ecological footprint and to helping our customers reduce theirs. Quick-Step guarantees 100% phthalate-free vinyl flooring. This means that no phthalates are added during the production or recycling process. Only our own flooring and remnants – which contain no harmful plasticizers – are re-used. Thanks to the perfectly sealed surface of the LVT floors, only an absolute minimum of volatile organic compounds are released: one hundred times less than stated in European regulations.

We want to assure you that our commitment to better living, to safety and sustainability not only matches international standards, it also matches your standards.

LIVYN

COLLECTION 2016 - 2017

Choose a QuickStep® Master Installer

Once you have chosen the perfect Quick-Step floor, your installation is the next important step. Choose a Quick-Step Master Installer who will install your floor to the highest standard and with the necessary attention to detail it deserves. Even more so, Quick-Step offers an additional 2 year installation warranty when you use a Quick-Step Master Installer. Find a Master Installer in your area on www.quick-step.co.uk

Try our floor advisor
