Additional bonus -only with this promotion -2 Day Acrylic course at only £100 if you book it together!!!

Manicure is a very important treatment as it is a base for all other nail applications.

Content: health, safety & hygiene, anatomy, consultation techniques, tools and products, manicure procedure, relevant massage techniques, nail polish application, aftercare advise.

Gel Polish Manicure is a fantastic new gel technique reinforces natural nails, looks like nail polish and wears like gel without the feeling of fake nails. If applied properly gives smooth, glossy finish with no drying time and chipping. It stays perfect on nails for two weeks.

Content: health, safety & hygiene, consultation techniques, tool and product introduction, nail preparation, colour overlay, maintenance, aftercare advice, removal of the application.

Fibreglass and Silk are two great techniques to protect naturally weak nails or repair broken or damaged nails. If applied properly it will look like natural nail and can be painted with nail polishes too.

Content: health, safety & hygiene, consultation techniques, tool and product introduction, nail preparation, application and removal of the product.

Gel Nail Extension on Tips & Sculpting are very beautiful, easy to learn and give you time to master the design to perfection.

Content: health, safety & hygiene, consultation techniques, tools and products, nail preparation, tipping and blending, using the nail forms, applying the product on tips and sculpting, clear overlay, French manicure in white and pink gel, shaping the nail, maintenance, aftercare advice, removal of the extension.

Nail Art –Encapsulation is a great nail-art technique –easy to learn, suitable for acrylic and gel nails, for extensions and overlay on natural nails.

Content: consultation techniques, tools and products, creating a design, different designs to master.

With this course you will receive starter kit Free!

Including: UV gel, gel brush, files, buffers, 100 tips, tip glue, tip cutter, 6 nail decorations, blending pen.

All tools and products for the course are provided
