WELCOME!

14 years of making gift hampers that are creative and unique!

A lot of thought goes into every product combination so I am able to design a hamper that meets your brief while still comprising of exceptionally tasty treats that compliment each other.

Where possible I use quality local products from the South West Region and Australian made products. My stock changes regularly so you can be confident using my service year after year knowing your family, friends and colleagues are getting to experience new products & flavours that I have discovered while supporting a wide range of other small businesses.

Large or personalised hampers can take time to create. I won't stop until I know it's as perfect as it can be! Please ensure you order as early as possible to give me the maximum time to work my magic

NOTE: When using small batch, artisan products from local suppliers there is always the chance of running out of stock. In this case a similar product of equal or higher value will be substituted.

HAMPER OF THE DAY

Tarryn's Choice

NEW!!

If you have absolutely no idea what to order you can now choose a hamper size and leave the rest to me!! I will make all the decisions and put together the best combination of goodies I have in front of me on that day.
