

We are having so much fun enjoying this amazing summer weather. We are getting some donations in for bug spray and sunscreen, thank you so much for helping us out! We are still encouraging small jacket for in the morning time. Our outside play time is getting to be very and very messy out there thanks to our water play time! Make sure we keep our kids in play clothes so we don't ruin anything!

SUMMER = BUG SPRAY & SUN SCREEN!

If you prefer a specific type to be used for your child you will need to supply it for them.

TOP 10 REASONS TO FINGER PAINT WITH YOUR CHILD!

1. Kids can learn informally about mixing and exploring colors.
2. All the senses are involved: seeing, hearing, touching, smelling, and (if you use edible paint) tasting!
3. Finger painting strengthens the finger and hand muscles, thereby improving fine motor development.
4. The development of hand-eye coordination is supported.
5. Finger painting is easier for little fingers that are not yet ready to manipulate a brush with skill.
6. This is a non-prescriptive way of promoting children's self-expression.
7. There is a focus on the process, not on the end result or the finished product.
8. It stimulates creativity and imagination.
9. Kids learn that they can manipulate and be in control of their surroundings.
10. It is MESSY, which also means it is FUN!

OUR MISSION

Imagine That Childcare provides a warm loving environment, with developmental learning activities for children from 6 weeks to 12 years old. We believe that your child's needs are of the utmost importance. Our entire team is committed to meeting those needs.
