

CUSTOMISED KAUPAPA MĀORI PLD

Do you need to strengthen your Kaupapa Māori practices in your school or organisation?

Do you want to engage in Professional Learning Development in this area?

If you would like to engage in Professional Learning Development to strengthen your Kaupapa Māori practices within your school or organisation, I can tailor-make a programme for your needs.

'Kaupapa Māori' is about best practice from a Māori worldview. It may require altering attitudes, considering different ways of treating and communicating with others, and considering different realities and contexts. Research continues to show that a kaupapa Māori approach to learning for Māori students has a significant positive impact on educational success, and it is now widely accepted that 'what is good for Māori is good for all'.
