

Michael (Mike) Jones – Class of 1963

High school can be a rewarding experience, mine was such an experience. It had a few setbacks, but life is like that.

My most vivid Southeast memory is the proud feeling of the Roundtable. I enjoyed participating in sock hops, basketball games and football games. “Go Knights!”

Preston, how are you? I would really like to hear from anyone from SE, especially from my class of 1963. Good luck and I hope to hear from any SE grads.

Away from school I worked at Bakers on The Landing. After high school I went to Central MO State College. I’ve been raising a family and I am still in education with the Shawnee Mission School District.

My brother Robert (Bob) Jones also attended Southeast. Our family lived at 5631 Olive and 7408 Lydia.
