

Policy #4/1998 – Used Culvert Sales

Purpose: To provide for the sale of unusable culverts.

The Foreman, with the approval of a member of Council may offer to sell culvert that has been removed from a road at a cost of \$10.00 per meter. The intent is to permit the use of culvert by a private individual of a culvert that we have no use for. Culvert shall not be given to anyone unless by resolution of Council regardless of the condition.

New culvert which has been cut and is too short for use by ourselves may be sold for the same price provided the culvert is smaller than 800 mm.
