

WHY Hire caricatures BY SPONGEHEAD PRODUCTIONS?

We've drawn more than 10,000 "On-the-Spot" caricatures over 20 years. Our most famous "On-the-Spot" caricature was of Regis Philbin (he showed it on the next show of "Regis & Kathy Lee"). "On-the-Spot" caricatures are very popular because they are drawn quickly, (3-5 minutes) & result in a humorous keepsake. Sessions are booked in advance & thus provide free caricatures to crowds of 30-300 people depending upon event size & hours commissioned. Because of timing, these caricatures are usually drawn black & white but can include color, full-body theme poses if specified. Also, as a gift, I can draw 'special occasion' caricatures from a photograph. See my website for details!

Special Occasion Caricatures are usually full color caricatures incorporating themes and drawn from photographs. These caricatures are done over a minimum of a one to two week time period. They can be as simple as a colored caricature portrait or as complex as incorporating hobbies, special lifetime events or workplace accomplishments. This type of caricaturing is drawn from photographs and usually includes an interim email proof of caricature likeness and composition. Special occasion caricatures make great gifts and prices vary depending upon complexity of images. Our website has samples for review.

Publication Reprint Caricatures (newspapers, magazines, newsletters, advertisements, political cartoons & promotional material). Most of these caricatures are of notable people in the news or featured in an article. They can be very exaggerated and humorous. Caricatures for publication reprint are traditionally drawn in black & white and are usually commissioned by businesses such as newspapers, magazines, advertising firms or corporate art departments.
