

Clark Smith – Class of 1954

“My most vivid memory was when we won the City Championship in Football and Basketball.”

Southeast Memories

I lived at 6804 Monroe Ave. My sister Linda Ann Smith also graduated from Southeast.

I participated in quartet, football, choir, ROTC, president of the Roundtable, and many more.

My most memorable classes were gym and English. I remember Coach Cecil Patterson and Ms. Shouse in English, but the biggest thing that happened was the end of the Korean War in 1953.

After Graduation

I was offered a number of football scholarships and finally selected Missouri at Columbia.

I entered the U.S. Navy in Feb of 1958 and retired from there in June 1981 after which I taught the NJROTC program in various high schools until I retired from that in 1997. I then moved to the Dallas area where I served as the Director of Education and Training for a National Construction organization. I retired from that in 2006.

The class of 1954 is unique in that we stay in contact with each other and celebrate our graduation about every 10 years. Fortunately, we appear to be a pretty healthy group of souls.
