"Suffolk County government is at a crossroads and the situation is dire. We have never been closer to the margin than we are now. We are hovering at junk bond status. It's time for the people to regain control of the county and force the county to live within its means. Fiscal responsibility is the number one issue." Linda Kabot

"There are many challenges that face us regionally - affordable housing, water quality, economic development, transportation, public safety and continued environmental protection. But without fiscal solvency, we are doomed. Suffolk is bleeding red ink. We are at Junk Bond Status. It's time to stop kicking the can down the road and pull Suffolk County back from the brink of financial disaster. We need to elect community servants who are not afraid to make the hard choices to cut spending, to reduce accumulated debt, and to eliminate operating deficits - this will not be easy with special interests pushing back like the tail that wags the dog. I support John Kennedy for County Executive because he represents the best chance this county has to address the dire fiscal situation and reverse the years of financial mismanagement." Linda Kabot
