WELCOME!

For over 14 years I have been making gift hampers that are **creative**, **unique** and well just plain **awesome** really! A lot of thought goes into every product combination so I able to design a hamper that meets your brief while still comprising of exceptionally tasty treats and gifts that people actually want to eat & are guaranteed to enjoy.

Hampers don't have to be all peanuts & pretzels!

Where possible I use quality local products from the South West Region and Australian made products. My stock changes regularly so you can be confident using my service year after year knowing your family, friends and colleagues are getting to experience new products & flavours that I have discovered while supporting a wide range of other small businesses.

Christmas orders

It takes time to make a hamper perfect so I encourage my customers to order as early as possible to ensure myself and my Christmas team have time to create your special gifts. Last year I regretfully had to turn away last minute orders to guarantee quality was maintained for those customers who had already ordered.

NOTE: When using small batch, artisan products from local suppliers there is always the chance of running out of stock. In this case a similar product of equal or higher value will be substituted.

DISPLAY HAMPERS

I can place together a beautiful fanned out gift hamper by strategically placing every item to create a beautiful display. Wrapped by hand and including a bow or ribbon and quality gift card. This option is perfect if you are giving the hamper to someone in person or places such as an office who might like to display the gift before sharing with staff. It is also a great choice for Christmas raffles and prizes!!

BOXED HAMPERS

Boxed hampers have all the good stuff packed inside carefully & strategically to make sure I can fit as much as possible in there. Just before the lid goes on there is always a heavy sprinkle of lollies to fill any tiny spaces !! This is a great option if the hamper will need to be posted or if you are travelling because displayed hampers need very careful handling. Boxed hamper are also perfect for people who want to keep the gift as a surprise! These beautiful boxes will look perfect under the Christmas tree & will keep everyone guessing until Christmas morning.

“Awesome, I will use again, I am 2000km away and got a 21st hamper for my daughter, so easy and totally thrilled with it”

“Wow I'm impressed!! very nice work, will keep your details handy. I appreciate the effort you have put in, thanks so much”

*The basket you did for my Dads 90th was amazing and he
LOVED IT. Thank You.*
