

Robert Baker - Class of 1973

My most vivid memory is the Senior Lounge.

Southeast Memories

My family lived at 6423 South Benton when I was in high school. Russell, Rhonda and Tracy are also Southeast graduates.

I participated in football and the American Royal.

I remember my gym teacher Mr. Gurley.

An important current event during those years was Martin Luther King's death.

I spent time away from school working and at Swope Park.

After high school graduation, I was off to school after an injury in 1974. Today, I am a programmer analyst.

My message to other Southeast graduates is "Keep believing."
