SOLUTIONS

## Latest Payment Technologies

We bring our merchants the latest in payment innovation. From EMV to Apple Pay (and whatever comes next), we have you covered.

## Industry-Leading Security

We help protect your customers' payment card data and your brand by utilizing industry-leading payment security technologies like tokenization and end-to-end encryption.

## World Class Customer Support

Our US-based team of payments experts are ready to answer any questions you may have. From the latest in payment technologies to billing, we're here for you - day or night.

## A Variety of Integrations

Working with the leading processors and point-of-sale (POS) companies gives us a powerful advantage over the competition, and our list of integrations is always growing.

## About Tranont Processing

Tranont Processing is a leader for payment processing solutions in the restaurant, hospitality, and retail industries. Supported by extensive expertise, strong partnerships and proven technologies, Tranont Processing offers the latest advancements in payment processing to increase security while optimizing business operation.

## Focused on You

As merchant advocates, we're here to help businesses thrive. Our business-first approach is designed to help you process card transactions as securely and economically as possible. We're proud to offer programs that reflect our commitment to driving down costs and helping you grow your business.
