"Give us the time, We'll stimulate your mind"

TARGET AUDIENCE

**Nurses • Clinical Nurse Specialists
Nurse Practitioners • Nurse Educators**

LEARNING OUTCOMES

At the conclusion of the educational activity the participant will:

- Describe the anatomy & physiology of the GI & GU tract as it relates to a fecal/urinary diversion.
- Correctly differentiate the types of fecal ostomies and the indications for a fecal diversion.
- Correctly identify the indications for a urinary diversion & proper post-op care of the patient with an ileal conduit.
- Correctly describe the basic principles of stoma management.
- Identify one change they will make in their professional practice that will advance ostomy care across the healthcare continuum.
- Describe the etiology of an enterocutaneous fistula and the goals of management, including pouching techniques.
- Identify key ways to manage a patient utilizing negative pressure wound therapy.

SPEAKERS

Laura Benedetto-Rugen, RN, BSN, CWOCN

is a Certified Wound Ostomy Continence Nurse specializing in ostomy & fistula care at North Shore University Hospital for the past 14 years. Laura provides preop & postop care, consultation & education for patients with urinary & fecal diversions, as well as complex abdominal fistulas & draining wounds. She has presented at numerous conferences, including the WOCN National Conference.

Marian Owens, RN, BSN, CWON

is a Certified Wound Ostomy Nurse specializing in ostomy, fistula & wound care for over 10 years at the Northwell Health System. Marian manages patients with ostomies & fistulas in both the Acute Care & Home Care setting. She provides consultation & education preoperatively & postoperatively, as well as assuring continuity of care as patients are discharged into the community setting. Marion has presented at numerous conferences, including the WOCN National Conference.
