

MONARTO EQUESTRIAN CENTRE

ROAD CROSSING

Workzone Traffic Management Plan

1. **PLAN AND SET-UP ROAD SIGNS:**

Please look at the attached road plan and place **All Road signs** at the required distances specified. (example shown below)

2. **OPERATORS IN POSITION:**

At all times at least one worker must carry a current Workzone Traffic Management accreditation card.

Personnel to wear **Hi-Viz vest or jacket** - personal protective equipment at all times

Operators must have **UHF Radios (2)** and Operators must have **Stop, Slow Bat (2)**

Traffic controllers must stand facing the traffic but just outside the projected travel path.

Traffic controllers should ensure that approaching traffic has sufficient distance to stop safely.

3. **REMOVAL OF SIGNS:**

As soon as practicable, **Remove all Road Signs** to allow traffic to proceed as normal.

All signs and Stop Slow Bats, are to be cleaned and returned to the Secretary shed.
