

THE *Original* BRITISH MINERAL BEAUTY

We've come a long way since Lily Lolo founder, Vikki, began mixing up her own gorgeous mineral creations at home over 10 years ago. Today you'll find our products in some of the coolest beauty stores and salons around the globe, from Los Angeles to London, and can of course have them delivered direct to your door from our online store.

WHAT MAKES HILY LOLD UNIQUES

Inspired by beauty's many faces

Whether your skin is dry, oily or anywhere in-between, Lily Lolo mineral makeup gives a flawless and seamless complexion without clogging or irritating. We also believe that modern beauty comes in many forms, which is why we create our products with every type of woman in mind, whatever your style, age and skin colour.

Made with love... and without harmful ingredients

Our products are made using only ingredients that are proven to nourish and protect the skin. That means you'll never, ever find harmful chemicals such as parabens and phthalates, synthetic perfumes, dyes and anything else that isn't kind to you and your skin. Plus we're proud to be certified cruelty free, too.

Empowering women through makeup

Our shared passion for makeup and the way it can transform the way you feel, as well as the way you look, is at the heart of everything we do. So as well as a range of products and shades to suit every complexion, you can also count on us for expert advice on how to make it work for you, with step-by-step guides and video tutorials from our favourite makeup pros.

What's more, because we never stop our search for the very best in natural beauty, as well as our original, cult-status Mineral Foundation, today fans can now discover a complete collection of must-try makeup, beauty accessories and skincare.

BB CREAM

Perfect your look with our silicone free Beauty Balm, packed with nourishing and anti-ageing ingredients with mineral pigments to help blur imperfections and even skin tone. Ideal for light coverage when used alone for healthy looking, radiant skin in one easy step. Can also be applied before your foundation for added coverage and longevity.

RRP £13.50

Expert Tip

Apply with your fingertips all over the face, dabbing gently and blending into the skin.

MINERAL FOUNDATION SPF15

Our finely milled Mineral Foundation SPF 15 buffs into the skin effortlessly & allows custom coverage when applied in buildable layers. Made from natural ingredients to ensure the skin is kept clean & healthy, minimising breakouts and blemishes.

Internationally renowned for its luminous finish, remarkable staying power and weightless texture - whatever your skin tone, colour or age, our mineral foundation will work for you. It's great for spotprone and sensitive skin, and its broad spectrum UV protection is looking after your skin while you concentrate on looking good.

And the best bit of all? You don't need to be a pro to get it right, it's easy to apply. Follow these simple steps and you can't go wrong.

RRP £15.00

"THE ICONIC BEST SELLER"

Step 1.

Moisturise your face and allow a couple of minutes for the moisture to absorb. Your face needs to be dry for the best results.

Step 2.

Lightly shake the jar so that a small amount of minerals fall into the lid and swirl your Kabuki brush into the powder.

Don't overload - a little goes a long way. Tap off any excess powder.

Step 3.

Using circular motions buff the powder into the skin, blending evenly as you go. Build the coverage in layers until you have your desired finish.

FIND YOUR PERFECT SHADE

It's important to find the right shade in your foundation to ensure that you're comfortable wearing it and that you always look your best.

Before looking at the different shades available, it's best to take a really good look at your skin in natural daylight and note down the colouring to your skin and any undertones that show.

It's also good to look at the veins on the inside of your wrists as the colour of these may help determine your skin tone too.

YOUR UNDERTONES ARE	IF THE COLOURING/TONE TO YOUR SKIN IS
NEUTRAL	Balanced, no obvious pink, peach or yellow to the skin and veins are greeny-blue.
COOL	Pinky tones to the skin and veins are more likely to be blue.
WARM	Peachy tones to the skin and veins are more likely to be green.
OLIVE	Yellow tones to the skin and veins are more likely to be green.
