

Are You Sure it's...MOTHER NATURE?

Another tornado struck Springfield, Massachusetts last week, causing damage that left at least 4 people killed. Meteorologists are struggling to explain to the public **"WHY"** the severity of these storms. Most try to shrug it off, blaming **"Mother Nature."** Are they right?

The **"Mother Nature"** concept started when man **"...did not like to RETAIN God in their knowledge"** (Romans 1:28): **"...God IS NOT in all his thoughts"** (Psalm 10:4).

"Mother Nature" is a non-religious term that uses a **caring woman** to represent nature's bounty and life (Remember the commercial above, **"It's not nice to fool Mother Nature?"**).

Because many ancient civilizations farmed for their livelihood, their survival depended on a good crop every year. They began to believe that **"nature,"** instead of God, took care of their crops and helped them grow, like a mother takes care of her child.

Religions throughout history have often included a **"wise mother figure"** that can be called upon when asking for help with a harvest or fertility.

While she may go by many different names in different parts of the world, the **WOMAN** is always **kind** and **very powerful!** Some religions' **mother figure** include the ancient Egyptian goddess Isis, Hinduism's Parvati, the Celtic Danu, and the Roman Catholic's Virgin Mother Mary.

However, the Word of God foretells of signs to come that show the times we are living in. False Christianity, wars and commotions, great earthquakes, famines, pestilences, fearful sights, and great signs from heaven are all barometers indicating **CHANGE** in the world (Luke 21:8-28).

These powerful and unpredictable storms, incredible droughts and flooding, fires that devour millions of acres every year, leaving thousands homeless, is also taking its toll worldwide on **MAN'S** ability to produce **FOOD**.

Wherever there is ice, it is **MELTING** due to an abnormal amount of **HEAT** from above, and from below. Volcanoes are forming beneath our oceans and lakes, and raising the temp.

Through these events and more, God is speaking to man. **"...when ye shall SEE THESE THINGS come to pass, KNOW that it is NIGH, even at the doors"** (Mark 13: 29). God is pointing to His Word.

We all heard about the devastating EF5 tornado that ripped through Joplin, Mo., killing 139, injuring about 900, and destroying an estimated 8,000 buildings. The number of tornadoes so far in 2011 are 1,212 compared to the average in a single year: 1,293.

in the United States

in India

about changes taking place worldwide that are affecting not only the weather, but the animals, our food supply, and environment too.

God said, **"...there is NO TRUTH, nor MERCY, nor KNOWLEDGE of God in the land...MY PEOPLE are DESTROYED for LACK OF KNOWLEDGE"** (Hosea 4:1, 6). There is a **LACK OF THE KNOWLEDGE OF GOD** worldwide. Don't let it be **YOU**. Believe the Word of God **NOW!**
