WEEKLY REPORT OF THE OIL AND GAS LEASING ACTIVITIES IN THE STATE OF NEW MEXICO, TEXAS, OKLAHOMA AND KANSAS AS TAKEN FROM THE RECORDS IN THE UNITED STATES DEPARTMENT OF THE INTERIOR, BUREAU OF LAND MANAGEMENT, STATE OFFICE AT SANTA FE, NEW MEXICO.

Report No. 2676

September 25, 2015 thru October 2, 2015

AMENDMENT NO. 2

Competitive Oil and Gas Lease Sale Notice dated July 22, 2015, for the October 21, 2015, Oil and Gas Lease Sale, is amended as follows:

Parcel NM-201510-012 is amended to add:

SENM-LN-2: Lease Notice: Protection of the Sand Dune Lizard

If you have any questions, please contact Margie Dupre at (505) 954-2142.

Gloria S. Baca
Supervisory Land Law Examiner
Branch of Adjudication

LEASE NOTICE PROTECTION OF THE DUNES SAGEBRUSH LIZARD

This lease may encompass suitable and occupied habitat of the dunes sagebrush lizard (*Sceloporus arenicolus*). The lizard can be found in active or semi-active sand dunes with shinnery oak vegetation. All or portions of the lease may contain suitable or occupied habitat of this special status species. The Bureau of Land Management through its NEPA process, is responsible for assuring that the leased lands are examined prior to any surface disturbing activities on the lands covered by this lease to determine potential impacts to the lizard and its habitat. In accordance with Section 6 of the lease terms, the lessee may be required to conduct an examination of the lands to determine the occurrence of the lizard (peak activity is May – August). Protocol for these surveys can be found in the 2008 Pecos District Special Status Species Resource Management Plan Amendment. The survey would be conducted by a qualified biologist or herpetologist approved by the Bureau of Land Management. A report of the findings would be submitted to the authorized officer. Exploration and lease development activities may be limited to areas outside of suitable or occupied habitat within the lease. If the surface management agency determines that lease development activities may adversely impact suitable or occupied habitat, restrictions to the lessee's proposal or denial of any beneficial use of the lease may result. Conditions of Approval for Applications for Permit to Drill or Sundry Notices may be developed to protect habitat for the dunes sagebrush lizard. The lessee will take such measures as may be required by the authorized officer to protect the lizard and its habitat. Bureau of Land Management SENM-LN-2 Pecos District Office Revised July 2012

SENM-LN-2

****NOTICE****

The following parcels have been nominated for the Federal Oil & Gas Lease Sale on April 20, 2016.

THIS IS NOT THE SALE NOTICE!!!!

This is *only* a list of the lands that have been nominated. Nomination *does not require* a parcel to be listed on the sale notice. These parcels may or may not be included in the list of lands offered for sale. Also, this list does include lease stipulations which are subject to change.

**OKLAHOMA FIELD OFFICE LEASE STIPULATION SUMMARY
KANSAS, OKLAHOMA & TEXAS**

Stipulation	Description/Purpose
BOR – Nueces River Project	NO SURFACE OCCUPANCY – NUECES RIVER PROJECT No surface access or surface occupancy is allowed. Drilling beneath Choke Canyon Reservoir (defined by the published maximum water surface elevation of 233 feet msl) is prohibited unless approved by Regional Director contingent upon completion of a risk analysis. All areas within 2,000 feet of any major structure, including but not limited to the dam, spillway, or embankment, are restricted areas. Drilling operations in, on, or under the restricted areas, including drilling outside of the restricted areas which would cause a bore hole to be under the restricted area, will not be permitted. All storage tanks and slush pits will be protected by dikes of sufficient capacity to protect the reservoir from pollution to maximum water surface elevation 233 ft. for Choke Canyon Reservoir.
COE SS-1A Heyburn Lake & Canton Lake	NO SURFACE USE OCCUPANCY No surface occupancy is allowed on this lease in order to protect the reservoir. All areas within 3,000 feet of any major structure, including but not limited to the dam, spillway, or embankment, are restricted areas. Drilling operations in, on, or under the restricted areas, including drilling outside of the restricted areas which would cause a bore hole to be under the restricted area, will not be permitted. All storage tanks and slush pits will be protected by dikes of sufficient capacity to protect the reservoir from pollution. There will be no surface or subsurface entry within 2,000 feet of the dam structure.
COE Somerville & Lewisville Lakes	NO SURFACE USE OCCUPANCY No surface occupancy is allowed within 3,000 horizontal feet of prime facilities critical to the operation of Somerville Lake, including but not limited to the dam, spillway, outlet structure, levees and related structures.
FS WO – 10/05/2006 Sabine, Sam Houston, & Davy Crockett	STIPULATION FOR LANDS OF THE NATIONAL FOREST SYSTEM UNDER JURISDICTION OF DEPARTMENT OF AGRICULTURE The permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of the Interior in the permit. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of an exploration plan by the Secretary of the Interior, (2) uses of all existing improvements, such as Forest development roads, within and outside the area permitted by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by an exploration plan approved by the Secretary of the Interior.
TXFG 1996NSO-14-01	NO SURFACE OCCUPANCY – RECREATION AREAS No surface occupancy is allowed within recreation areas in order to meet visual quality objectives and to protect recreation area values.
TXFG 1996NSO-14-03	NO SURFACE OCCUPANCY – LAKE CONROE No surface occupancy is allowed in order to meet visual quality objectives and to protect lakeshore areas.
TXFG 1996TL-15-01	TIMING LIMITATION – TURKEY NESTING AREA No surface use is allowed during turkey nesting season, February 15 through May 15 in order to avoid disturbance of actual or probable turkey nesting locations.

TXFG 1996CSU-16-01	<p>CONTROLLED SURFACE USE - NATIONAL FORESTS IN TEXAS - STREAMSIDE MANAGEMENT ZONE</p> <p>Portions of this lease contain streamside management zones (floodplains, wetlands). Site-specific proposals for surface-disturbing activities within these areas will be analyzed and will normally result in establishment of protective requirements or limitations for the affected site. Surface occupancy for oil and gas wells will not be allowed within the streamside management zone.</p>
TXFG 1996CSU-16-02	<p>CONTROLLED SURFACE USE – TRAILS</p> <p>Portions of this lease contain designated trails management zone corridors (up to 300 ft. or as appropriate for type of trail use). Site-specific proposals for surface disturbing activities within these areas will be analyzed and may result in establishment of protective requirements or limitations such as no surface occupancy.</p>
TXFG 1996-CSU-16-03	<p>CONTROLLED SURFACE USE – TOLEDO BEND RESERVOIR SHORELINE</p> <p>Proposals for a structure, facility, or motorized uses on Toledo Bend Reservoir lands between the 172' and 175' MSL contours, or on a strip of land extending inland 200 meters from the 175' contour, may be subject to special requirements or limitations such as no surface occupancy, such to be determined on a case-by-case basis.</p>
TXFG 199616-07	<p>CONSTROLLED SURFACE USE – RIVER BOTTOM AREAS</p> <p>Drilling and production facilities will be located at least 100 feet from the river, and production facilities will be required to be screened from the river. Mineral extraction activity must be conducted in a manner that minimizes surface disturbance, sedimentation and pollution, and scenery impairment.</p>
TXFG 1996CSU-16-08	<p>CONTROLLED SURFACE USE – TEXAS NATURAL HERITAGE PROGRAM AREA</p> <p>No surface occupancy is allowed. Site-specific proposals for surface-disturbing activities within these areas will be analyzed and may result in establishment of protective requirements, limitations or relocations.</p>
TXFG 1996LN-17-01	<p>LEASE NOTICE- NATIONAL FORESTS IN TEXAS – RED- COCKADED WOODPECKER</p> <p>Portions of the land in this lease are, or may be, occupied by clusters of the endangered red-cockaded woodpeckers (RCWs). WO-ESA-7

THREATENED & ENDANGERED SPECIES CONSULTATION

The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation.

WO-NHPA

CULTURAL RESOURCES AND TRIBAL CONSULTATION

This lease may be found to contain historic properties and/or resources protected under the National Historic Preservation Act (NHPA), American Indian Religious Freedom Act, Native American Graves Protection and Repatriation Act, Executive Order 13007, or other statutes and executive orders. The BLM will not approve any ground-disturbing activities that may affect any such properties or resources until it completes its obligations (e.g., State Historic Preservation Officer (SHPO) and tribal consultation) under applicable requirements of the NHPA and other authorities. The BLM may require modification to exploration or development proposals to protect such properties, or disapprove any activity that is likely to result in adverse effects that cannot be successfully avoided, minimized, or mitigated.
