POLICIES AND PROCEDURES AND HOME STUDY ORIENTATION FOR ADOPTION HOME STUDY REPORTS

SERVICES PROVIDED: Home Adoption Studies is a home study agency only. We are licensed to complete adoptive home study reports and evaluations for families who wish to adopt either domestically or internationally. We also prepare court reports and post placement reports for domestic and international adoptions.

ELIGIBILITY REQUIREMENTS: Any person, either married or single, may apply to the agency for the completion of a home study report. The minimum requirements for any home study report involve three home study meetings (at least one must be in your home), medical evaluations for all members of the household, verification of finances and employment, criminal history background checks, adoption education, reference letters, completion of self-study reports, and a home inspection. We are not able to work with any applicant who may have a felony conviction.

APPLICATION FOR SERVICES: Any person, or married couple, (residents of Georgia) desiring to apply for an adoptive home study evaluation will receive instructions to complete an application packet the documents for which can be found on this agency's website. The adoptive applicant(s) then forwards to Home Adoption Studies by mail or email, an application for the purpose of entering into a contract with Home Adoption Studies to perform the Adoptive Home Study Assessment. The application must be signed and dated. (See "Welcome" and all other documents required for a home study report on our website at www.homeadoptionstudies.com under "Forms").

ESTIMATED TIME TO COMPLETION OF HOME STUDY REPORT: A home study report may be completed in as little as three weeks if all criminal checks and documents have been received. The time it takes to complete the home study report is largely dependent upon how quickly the adoptive family can gather the documents as required by the State of Georgia.

DETAILED EXPLANATION OF FEE STRUCTURE: Fees paid for services rendered are earned at the time of payment and are thus non-refundable.

- **ADOPTIVE HOME STUDY EVALUATION FEE:** The Adoptive Home Study Report fee is made in two payments and is due with the application and the second at the home study visit. The application fee of \$200 is due when the application is mailed or emailed to our office. On the home study visit, this agency will collect the remainder of the home study cost at \$1400 for domestic or \$1600 for an international home study report, and any mileage costs incurred on the final home study visit. **THESE FEES ARE NON-REFUNDABLE.**
- **EXPEDITED HOME STUDY FEE:** A home study may be expedited (subject to the approval of the agency Director) for an additional fee of \$200. **THIS FEE IS NON-REFUNDABLE.**
- **FEES FOR MATERIAL CHANGES OR AMENDMENTS TO THE HOME STUDY REPORT:** Revisions to the home study report, or amendments needed (i.e. changes from international to domestic and vice versa, major updates prior to the expiration of the home study, etc.) **after** the final report has been written, approved and forwarded to the adoptive applicant are assessed at \$100 to re-issue the report or complete the amendment. This fee is due and payable at the time that the changes are made. **THESE FEES ARE NON-REFUNDABLE.**

- **ADOPTION HOME STUDY UPDATE FEE:** If your home study is expiring or has expired and you are a current client, a home study update fee of \$800 will apply as we will waive the application fee. If you are a new client to Home Adoption Studies, a fee of \$1000 is due and payable when a home study report must be updated. The increased fee for non-Home Adoption Studies families is due to the increased amount of paperwork required. This fee is collected at the home study meeting in the adoptive parent's home. **THIS FEE IS NON-REFUNDABLE.**
- **SUBSEQUENT HOME STUDY FEE:** If you are a former client and would like to adopt again, a subsequent home study fee of \$800 will apply as we will waive the application fee. If you are a new client, a fee of \$1000 is due and payable when a home study report must be updated. The increased fee for non-Home Adoption Studies families is due to the increased amount of paperwork required. This fee is collected at the home study meeting in the adoptive parent's home. **THIS FEE IS NON-REFUNDABLE.**
- **POST PLACEMENT FEE:** A fee of \$225 is due and payable at the time of each post placement visit. **THIS FEE IS NON-REFUNDABLE. ****Please note that failure to comply with the required post placement reports for both domestic and international adoptions will delay the finalization of your adoption.****
- **COURT REPORT:** If a court report is needed for an adoption finalization, we will complete the Court Report for a fee of \$250. **THIS FEE IS NON-REFUNDABLE.**
- **FEE FOR MILEAGE AND TRAVEL TIME:** Mileage for the case worker to and from the adoptive family's home, or agreed upon meeting place, will be assessed at current IRS guidelines in place at the time of the meeting. **THESE FEES ARE NON-REFUNDABLE.**
- **COPIES OF THE HOME STUDY REPORT:** Home Adoption Studies will provide the adoptive family with two notarized originals of the home study report. We also provide a PDF version of the entire packet. Additional original home study reports and/or home study documents needed which are requested **after** the initial home study report has been released are available at \$25 each. Payment must be sent to our main office before the request will be processed. **THIS FEE IS NON-REFUNDABLE.**
- **RECEIPT FOR SERVICE:** The adoptive family will receive a receipt listing agency expenses and the fees paid when the home study report is issued.

LEGAL PROCEDURES INVOLVED IN ADOPTION: The adoptive family will be advised of the various legal issues involved in adoption. This will include birthparent rights, adoption searches, the selection and placement process, the ICPC or CIS process, post placement reports, and finalization of their adoption. This will occur during the first orientation home study meeting.

THE ADOPTIVE HOME STUDY PREPARATION, PROCESS, AND PROCEDURES: Home Adoption Studies will acknowledge acceptance of the application by phone or email at which time the home study appointment may be scheduled.

The Adoptive Home Study Assessment is the process by which the adoptive family engages the services of Home Adoption Studies to determine the readiness of their home for the placement of an adoptive child or children. A key element of this process is the preparation of the family for the placement, including education, support, and contact with other adoptive families. This process is a contractual agreement which is entered into voluntarily. Either party may terminate the process at any time. The termination of the Adoptive Home Study Evaluation process shall be acknowledged by the written and signed notification to the other party by mail or email. Any fees paid up to this point are non-refundable.

The Adoptive Home Study Evaluation Process is comprised of the following components:

- The assessment of the adoptive family for adoption services shall include a minimum of one visit. The visit includes; the adoption orientation, and the applicant(s), and any other individuals who reside in the home, shall be seen and interviewed at the home visit, the training, and the home inspection.
- The family will complete a personal profile questionnaire or "self-study". The adoptive family will also provide copies of the birth and marriage certificates, divorce decrees, and adoption decrees for all members of the household as applicable. This written questionnaire and all other documents required for the home study report must be on file with Home Adoption Studies before the family's home study report can be issued by the agency.
- Approval or disapproval of the adoptive family for the placement of a child shall be made by the Adoption Case Worker in conjunction with the agency's Executive Director including the Case Work Supervisor. These staff members shall review the written home study report and any supporting information and data as necessary. The adoptive family will be notified in writing as to the disposition of the evaluation.
- A decision on approval of the adoptive applicants shall be made within 10 days of the last contact with the applicant(s) and/or receipt of all required home study documentation. A denial of the home study report will be fully documented in the adoptive family's file. Adoptive families receiving an unfavorable home study assessment will be given a list of resources with which to strengthen areas which Home Adoption Studies perceives as limitations. It is the policy of this agency not to provide a home study report to persons with felony convictions.
- A completed Adoptive Home Study Assessment which contains a favorable recommendation does not guarantee the placement of a child or children in the applicant(s) home. Placement of a child or children is the responsibility of the applicant's placement source (the "placing agency or attorney" for either a domestic or international adoption). Home Adoption Studies cannot be held responsible, either financially or in any manner, for the outcome of the adoption process.
- Prospective adoptive families should not apply and begin the home study process until they are ready to participate fully in the process. Fees, interviews, and documents expire at twelve months from the time the application is received; therefore, delays during the home study process will result in a family having extra interviews, revising documents, and paying additional fees.

POST PLACEMENT SERVICES: According to regulations for the State of Georgia regarding families who adopt a child within the State of Georgia, either Home Adoption Studies or the family's placing agency or attorney will conduct a minimum of two post placement visits after the placement of a child, monthly visits prior to the Petition for Adoption being filed. The first visit shall be made within 30 days of placement of the child. There shall be 30 days between the required home visits. Post placement visits will continue on a quarterly basis until finalization has been completed.

For families adopting a child from another state, the originating state and/or placement agency may require additional post-placement visits and the adoptive family will follow the post placement requirements of the other state or the state where the adoption is being finalized.

It is the sole responsibility of the adoptive family to contact Home Adoption Studies regarding post placement services in compliance with agency, state and/or country regulations for post placement supervision according to the schedule of their placement agency. The adoptive applicant agrees to pay the post placement fee and mileage costs incurred for supervision services to the agency at the time the service is rendered. The length of the post placement supervision varies from case to case and each applicant must cooperate and fulfill their obligations for post placement supervision.

INTERSTATE PLACEMENT OF CHILDREN: Home Adoption Studies shall comply with the applicable laws of the State of Georgia and with the provisions of the Interstate Compact on the Placement of Children, known as ICPC. ICPC is the interstate agency provided in each state, that regulates the approval of adoptive parents with the placement of adoptive children concerning temporary placement of a child with the adoptive family before finalization. This process usually takes around 10 to 15 days to complete after the birth or placement of the child.

ADOPTION FINALIZATION: The adoptive family shall engage, at their own cost, legal representation for the finalization of their adoption. In the case of a domestic adoption, this shall take place at the conclusion of the post placement period and after all requirements have been fulfilled for both the sending and the receiving state.

POST-ADOPTION SERVICES: In addition to post placement services, Home Adoption Studies is available as a resource and counselor on an on-going basis to our adoptive families. We welcome a continued relationship with our families through the years.

UPDATE OF HOME STUDY: Domestic home study reports remain valid for one year from the approval date. All documentation provided for the home study report remains valid for twelve months from the date on the particular document. It is the sole responsibility of the adoptive family to contact Home Adoption Studies to update the adoption home study report *at least* six weeks prior to the expiration of a home study report.

GRIEVANCE PROCEDURE: All applicants shall have the right of appeal of grievances. Applicants agree not to engage an attorney and/or enter into litigation. Should a difference arise between an applicant and their adoption case worker, such differences must be settled in the following manner:

- Grievances should first be discussed with the adoption case worker involved. If the difference is not resolved, the applicant should inform the adoption case worker in writing as to the nature of the grievance within two working weeks. At that time, the applicant should request a conference with the Case Work Supervisor. If needed, the Case

Work Supervisor will meet with the applicant(s) at the Case Work Supervisor's office within two working weeks of the date of receipt of the applicant's written grievance request.

- If resolution is not reached within two weeks after the applicant meets with the Case Work Supervisor, the nature of the grievances shall be presented, in writing, to the Executive Directors by the applicant. The Case Work Supervisor and the case worker will also report, in writing, the results of their findings to the Executive Directors. The Executive Directors will arrange a meeting within two weeks, between the applicant(s), the Adoption Consultant, and the Adoption Supervisor. The Executive Directors will render a decision, in writing, to the applicant(s), the Case Work Supervisor, and the case worker, usually within two weeks after the conference. The decision of the Executive Directors is final.
- If this procedure does not result in an agreeable resolution, the applicants may choose to participate in an objective, professional mediation service and abide by the recommended resolution. The adoptive applicants will pay for these mediation services.

ESTABLISHING, MAINTAINING, AND STORAGE OF RECORDS AND FILES: Home Adoption Studies shall maintain adoption records pertaining to each family. All finalized, or closed files, and all legal documents will be housed in the administrative office until the adoption is finalized and/or the case is closed. These records are to be maintained in fireproof, locked file cabinets. Once the adoption is finalized and/or case closed, the adoption records will be converted to a non-paper format. It is the adoptive applicant's responsibility to keep copies of *all* their documents. Documents provided to Home Adoption Studies by the adoptive family become an official part of the the agency's records and are the sole property of Home Adoption Studies.

CLIENT'S RESPONSIBILITY FOR KEEPING DOCUMENTS CURRENT: The prospective adoptive family further acknowledges that under the laws of the State of Georgia, the home study will be valid for a period of twelve months from the date upon which the report is completed and signed by the agency. Supporting home study documents may be current for only one year from the date on the individual document (i.e., medicals, Child Protective Service forms, criminal history reports, reference letters, pet vaccinations, sewage and water approval, employment letters. etc...), depending upon the requirements of individual placement agencies, states, or countries. **Even though the home study may not have expired at the time of a referral for the placement of a child, the supporting documents may have expired and will need to be resubmitted to Home Adoption Studies, as an addendum.**

Important: There is no feasible way for Home Adoption Studies to know the following:

- When a referral from a placement agency will be made
- If, at the time of referral, the client's documents are current
- Changes in document requirements of the placement agency or another state

It is the sole responsibility of the adoptive family to contact Home Adoption Studies and their placement agency prior to the one-year anniversary of the documents to determine whether or not updated documents need to be submitted by the adoptive family to the placement agency in order to meet the requirements of the placement agency or the state from which the adoptive applicants are adopting. The adoptive family may access all home study forms and criminal background check instructions from our website. (Exception: Applicants adopting through a Texas Placement Agency must have certain documents updated every six months.)

CRIMINAL HISTORY FOR ADOPTIVE CLIENTS: All adoptive applicants must be forthcoming and honest about a criminal charge. If an applicant has ever been fingerprinted for an arrest, the GBI and/or the FBI report will show this arrest. It is understood by the adoptive applicant(s), that no matter what they have been told by a police officer or an attorney, if they were ever fingerprinted regarding a law enforcement matter, this information will show up on a GBI or FBI criminal background check. This includes charges made by the applicant when underage, expunged records, and dropped charges. Felony convictions will almost always result in the inability to obtain a favorable home study report.

BEHAVIOR MANAGEMENT: Home Adoption Studies is committed to the philosophy that effective behavior management is based on consistency and effective communication of expectations and consequences. The long-term goal of behavior management is to teach children self-control and self-discipline. The type of behavior management needed is determined by the age of the child and the child's individual needs and personality. Distraction, reasoning, "time-out" and cause and effect learning techniques are all effective means for teaching a child's self-control skills. Corporal punishment is never an appropriate form of discipline.

The following forms of behavior management shall not be used by a prospective adoptive parent(s):

- Assignment of excessive or unreasonable work tasks
- Denial of meals or hydration
- Denial of sleep
- Denial of shelter, clothing, or essential personal needs
- Denial of essential services
- Verbal abuse, ridicule, or humiliation
- Manual holds, chemical restraints or mechanical restraints
- Seclusion or confinement of a child in a room or area which may reasonably be expected to cause physical or emotional damage to the child; or
- Seclusion or confinement of a child to a room or area for periods longer than those appropriate to the child's age, intelligence, emotional makeup and previous experience, or confinement to a room or area without the supervision or monitoring necessary to ensure the child's safety and well-being.
- Children shall not be permitted to participate in the behavior management of other children.

Home Adoption Studies shall take appropriate corrective action when it becomes aware of, or observes, the use of prohibited forms of behavior management. Documentation of the incident and the corrective action taken by the agency shall be maintained in the case records of the child and family.

Criminal Background Checks

Background checks are required for all couples. There are 3 different background checks required by the state. You have to have a local background check from your local police/sheriff's department, a state (GBI) background check, and a federal (FBI) background check.

LOCAL BACKGROUND CHECK

Go to your local police/sheriff's department and ask for a local background check. They may have a form for you to complete or you may use our form.

FBI BACKGROUND CHECK

For the FBI prints, visit www.fieldprintfbi.com. They should list a location near you for an **appointment**.

Please print out the results within 7 days, as it expires, and give it to your case worker.

GBI BACKGROUND CHECK

The GBI requires that fingerprinting for all adoptions be completed through the COGENT System or your local police.

Step 1: To register for GBI fingerprints, follow these instructions:

- Go to the following website: https://pci.aps.gemalto.com/gaper/pub/landing_page_1.pl
- Application Registration: Click onto GA Check Only (look for the symbol)
- Complete the required fields
- For Reason, select **Private Adoption (Adoption Agency) – GA Check Only**
- For Payment, select **Credit Card** or **Money Order**

- If paying by credit card, enter your credit card information. A fee of \$36.25 will be charged for each applicant.
- If paying by money order, you will need to get a separate money order for each person being fingerprinted and bring the money orders with you to your fingerprinting location. Each money order will be for \$36.25 and need to be made out to: Cogent Systems – GAPS.
- Print the registration page with the registration number. You will need this at the fingerprinting location.

Step 2: To have your fingerprints completed, follow these instructions:

- On the COGENT home page under Print Site Locations, click on **Print Locations and Hours**. Find a location nearest facility.
- When you go to get fingerprinted, you might want to call first to be sure they are open and have someone available to print you. Be sure to bring your Cogent registration page with the registration number (the page you printed when you completed the registration), your money order (if you did not pay by credit card), and your driver's license or photo i.d.

 - Know or learn how to swim.
 - Ensure direct adult supervision of children when around bodies of water.

Home Study Agency Certification of Adoptive Parent Preparation and Education

Adoptive families are required to be prepared and knowledgeable about adoptive issues. It is expected that we, as the home study agency, have provided this training for the adoptive family and we certify that this training has been satisfactorily completed by the adoptive parent(s). Time and experience has shown that it is extremely beneficial to the family to have help and access to resources early in the placement in order for the family to be assisted with their adjustment and with the child's adjustment regardless of whether you are adopting domestically or internationally. This certification verifies that the following topics have been discussed at length throughout the adoption home study process to the satisfaction of the adoptive parent(s) and the knowledge to the adoptive parent that this agency is available to them after placement should these issues warrant further discussion.

Your home study Case Worker will review and discuss the following topics with you throughout the home study process:

- For domestic adoption, the requirements of the Georgia Interstate Compact rules and guidelines.
- Finalization of the adoption process and how that process differs from state to state. For international adoption, the re-adoption requirements.
- Education for the family with regard to attachment and bonding. Discussing the basics of how bonding and attachment occur. Ways to facilitate bonding. The possibility of an attachment resistive or disordered child placed with them and that there is a continuum of severity with attachment resistive and disordered children. Awareness that infants are not immune from having attachment difficulties. Development of a plan to address these issues should they occur with their child(ren). Awareness of grieving in adopted children and how this impacts attachment.
- Preparation with regard to abandonment, separation and loss issues for the child as they relate to placement, during initial adjustment and at each stage of the child's development.
- Discussion of the various ways children grieve when they are separated from all that is familiar in their life and how they may experience that loss, as well as every day events perceived as losses during long-term adjustment.
- Discussion of the various behaviors families may anticipate from their child which relate to the grief process. Awareness that grieving has no time limit and may occur at any one or at numerous stages of development.
- Discussion of various forms of discipline and how different types of discipline may work for one child and not another. Corporal punishment is strongly discouraged. Offer of On-line-Library of resources.
- Discuss ESI's and Human Empowerment Leadership Principles (HELP) as a resource for intervention.
- The ability of the adoptive family to assess their personal level of self esteem and their ability to handle rejection, so that they can handle the rejection if that is an aspect of the child(ren)'s behavior during the attachment process.
- Awareness that there are no "perfect" children, just as there are no "perfect" parents. When problems come up that feel overwhelming, the adoptive parents must be willing to seek help and be open to changing their own perceptions as they learn and grow with their adopted children.
- Adoptive parent counseling regarding difficulties and delays associated with different types of adoption situations.

- I, _____ hereby affirm that _____ and _____
(Adoption Case Worker) (Adoptive parent)
- _____ have received counseling/education on each of the
(Adoptive parent)
- above mentioned adoptive issues and have been advised of the risks and adjustment issues relating to the parenting of children through adoption.
