FFCRA & Human Resources Management Responsibilities/Mandates

FAMILIES FIRST COROVIRUS RESPONSE ("FFCRA")

"On March 18, 2020, President Trump signed the Families First Coronavirus Response Act ("FFCRA") into law. Beginning no later than April 2, 2020, and through December 31, 2020, the FFCRA mandates family medical and sick leave payments for individuals affected by Coronavirus ("COVID-19") to be paid by employers with fewer than 500 employees. For family medical leave, the determination of the number of employees is based on the Family and Medical Leave Act of 1993 ("FMLA") rules. For sick leave, the determination of the number of employees is based on the rules of the Fair Labor Standards Act of 1938 ("FSLA").

There are three key parts of the law that relate to employee benefit programs: COVID-19 testing, paid FMLA, and paid sick leave for individuals affected by COVID-19. These payments are funded with a refundable tax credit applied to the employer share of FICA and Medicare taxes due in the quarter in which the payments are made."
