

# Adjective Exercise

For this game you will need chopped up adjectives to hide around the house and a pile of cards with different exercises on.

Hide all the different words around the house. When the child has found the word they have to return and pick up an exercise card.

While they are completing the exercise that is 'thinking time'.

After the time is up they have to tell you the best sentence they can think of including the adjective.

Children could challenge each other to think of the most creative sentences.

**Exercise Examples: 60 seconds running, 20 star jumps, 10 burpees, 60 seconds high knees.**

**Adjective examples: beautiful, bitter, enormous.**
