

COMMERCIAL ROLL-A-WAY BEDS

Stand Up Supra

The Stand Up Supra roll-a-way bed takes our Supra roll-a-way and stands it on its head, literally. The sturdiest and most comfortable commercial roll-a-way in existence, the Stand up Supra now allows hotels to pre-make the bed before rolling it into a guest's room. Unlike most competitors stand up roll-a-ways, which are incredibly heavy, the Stand Up Supra is made of lightweight tubular steel meaning that one person can move and set-up the bed by themselves! The "Supra-Loop" suspension system provides unparalleled support and comfort. Each bed comes with a 6" foam mattress. Choose between a cloth mattress or a waterproof/repairable mattress. Available only in 39" width.
