

The Frequency of Angels & Crystals TM

Angels radiate electromagnetic energy that also vibrates to different frequencies.

People sometimes choose crystals, sound, and colour that correspond to the energy frequencies of certain types of angels, attracting them with specific types of energy and perceive angelic messages more clearly than they could otherwise.

There is a metaphysical system of identifying angels according to light rays of seven different colours that correspond to different energy frequencies. The light waves for the seven angel colours vibrate at different electromagnetic energy frequencies in the universe, attracting the angels that have similar kinds of energy.

Combine these incredible energies to produce a frequency of Angels & Crystals.

What's included in this training?

Firstly, this is a trademarked healing system which is only available to study through the centre of wellbeing.

This healing system is accredited and insurance approved and qualifies you to practice the frequency of angels and crystals.

The Training includes:

Angelic tuning forks

Printed manual

Home study in the codes of conduct and body systems.

A set of beginners crystals

Coloured candles

Your 2 day classroom training  explores the power of vibration combined with angelic realms and crystal healing.

There are no prerequisites to training but you do have an exam and case studies to complete after the 2 classroom days.

Using angelic tuning forks, crystals and colour, we explore meditation techniques, group healing, distance healing, self therapy and how to conduct one to one sessions for your clients.

These will be small groups with no more than 6 students.

Upon successful completion of this training, exam and case studies you will be a Frequency of Angels and Crystals™ Practitioner, able to gain insurance and offer therapies to the public.

The total cost of this training is £300.

This course is accredited by the Complimentary Medicine Association and approved by Balens Insurance.
