

Commitment

We would like to welcome everyone to the NAYS AAU Bball program. The reason you have attended today is to be part of something that has been strong and has grown for the last 9 years.

In our program we rely on our members help. There is no way we would have been able to make things happen in the past years without those parents who gave rides, chaperoned and at times fed players.

What would be expected as a member of our program would be:

- Families carpooling for practices, with so many players from all over southeastern WI. It should make it easier for all of us to arrange rides for each other.

- We play a lot of games so there will always be players that need rides to tournaments. We ask for parents that would have room in their cars to be kind enough to offer rides. We are looking at travelling by bus if cost effective for all.

- All the tournaments we enter require us to provide a scorekeeper. This would involve being at the table either working the clock or keeping the stats in the book. We ask for a parent volunteer to help us fill this task.

- We encourage any or all parents to take video, photos ect. NAYS has its own YouTube Channel where you can upload game footage and also watch game footage from around the region.
