

Bill Mulcahy founded Mulcahy Accounting & Risk Consulting (MARC) with the vision to save companies money and time by providing them an interim executive for short-term and less than full-time needs.

Prior to starting his own business, Bill was the Chief Audit Executive of Emory University, including Emory Healthcare. He also worked for Arthur Andersen for ten years where he served clients in healthcare, not-for-profit, government, and commercial industries.

MARC has worked with prominent organizations such as, Oglethorpe University, the Board of Regents of the University System of Georgia, and the City of Atlanta.

Bill served as Chairman of the Board of the Institute of Internal Auditors, Atlanta for four years. During his tenure, he was instrumental in bringing the 2010 Institute of Internal Auditors International Conference to Atlanta. His leadership at the conference brought together more than 2,500 auditors from around the world.

His resume also includes auditing for the Federal Government and Blue Cross Blue Shield of Georgia; as well as serving as CFO for a hospital and working as Division CFO for the Office of Grants and Contract Accounting at Emory University.

Bill received a Bachelor of Science degree in Accounting from Philadelphia University and a Master of Science in Healthcare Policy and Administration from Mercer University.

Mulcahy Accounting & Risk Consulting makes available a certified public accountant and certified internal auditor providing accounting, audit, and governance services; as well as strategic and reputational risk management for companies who need immediate business solutions, but don't have the time or money to hire a new full-time executive employee.

Leader

Accounting

Save your company time and money through our accounting services.

MARC makes available an executive for companies who need accounting solutions, but don't have the time or money to hire new full-time employees. We provide accurate, timely and cost-effective accounting practices, so you can focus on your overall business.

Our services include forensic accounting, as well as traditional business accounting, such as billing, cash, accounts payable, and debt.

"Mulcahy's validation of our internal audit program gave the President and the Audit Committee comfort because of his reputation as a trustworthy, ethically-engaged internal audit leader.

In addition, his insights and more importantly, his foresights gave us a road map to the future of our Internal Audit Program," C.O. Hollis, Jr., CPA, CIA, Chief Audit Officer, Morehouse College and Board Member of a not-for-profit organization.

Audit

Improve your company's risk management and efficiency through our auditing services.

MARC offers audit services to help companies identify risks and analyze business procedure weaknesses, so you can improve controls and better streamline business operations.

Our services include coordination of external audits, remediation solutions for material weaknesses and significant deficiencies, risk remediation from regulatory Accreditation reviews, internal control monitoring, and internal audit projects.

We also offer Quality Assurance Reviews (QARs) to the Chief Audit Executive (CAE) and their Audit Committee. QARs are required by the Institute of Internal Auditors professional standards at least every five years. The QAR needs to be validated or prepared by qualified outside auditors. MARC is qualified to perform these QARs and has performed numerous QARs.

Governance

Prevent company fraud and liability issues through our governance services.

MARC provides analysis and counsel regarding business processes and policies affecting an organization's financial accountability to their stakeholders. Our insights will help avert scandals and ultimately enhance a company's overall reputation.

Our governance services include assessment and/or development of ethics and compliance programs. We set-up whistleblower hotlines and respond to and investigate complaints. Also, we evaluate processes and conduct testing to help assess compliance with The Sarbanes-Oxley Act of 2002.

" Bill's a proven leader and visionary whose passion, creativity, energy, and tenacity make good things happen for all the people and organizations he touches," Paul Sobel, Vice Chairman - Professional Development, The Institute of Internal Auditors Global and Author of Auditor's Risk Management Guide: Integrating Auditing and ERM.
