## OUR SERVICES ICARUS CONSULTING

---

has strategic partnerships with over a dozen women-owned and minority-owned businesses who source and staff the STEM-related industries. To date, the high-end IT talent in our exclusive network specializes in over 180+ of the latest, emerging technologies and coding languages. We have the niche Tech-consultants your company needs to implement new tech, improve data analytics, and build enterprise software. With IT consultants available on a contract, contract-to-hire, and full-time basis, you'll find the vetted Tech talent you need through our dedicated team of recruiters. We're with you every step of the way to help with anything that arises, before, during, and after placement.

# OUR SUPER POWERS

---

We ignite the passion of our employees, provide them with the tools they need to succeed, and create internal job growth opportunities through communication and collaboration.

We provide clients with flexible and fixed solutions to deliver the right high-end candidate for their hiring needs.

We support the freelance and contract workforce by expanding the reach of available short-term projects.

We also provide stability and security by placing candidates with the full-time positions they've been searching for.
