VOLUNTEER APPRECIATION

The Fort Saskatchewan Health Centre would like to take this opportunity to thank the many volunteers for their continued dedication and commitment to our organization.

To the Hospital Auxiliaries who have donated countless hours of volunteer service and donations in many forms which have benefited patients, their families and the staff; to the many student volunteers who provide friendly and individual support services to patients; to the Pastoral Care team who have visited the sick to ensure their spiritual well-being, we are truly grateful and most appreciative.

It is through the efforts of these and all the volunteers that we are able to provide a truly holistic approach to those who seek our services.

For the many acts of kindness, for all the thoughtful things you do, for all the hours you have shared with us,

THANK YOU.
