Avalon is the land of poetry, the isle of apples. In this series, the mythological world of Avalon weaves its magic through the tapestry of the Lion and the Unicorn, created in a magic tower by a wizard called the Doorkeeper. Aurias is the heroine of the myth, and lives under the dominion of the Count, in the castle of My Eternal Rose, where she is held captive until the Doorkeeper sends her through time to Avalon. There she reaches the cottage of the baron and Blithe, and meets their son Ethan who has been travelling in a foreign land. Aurias and Ethan marry and go to live on Castle Mount, and their four children are Summer, Autumn, Winter, and Spring. Aurias is a Waterhouse muse for the paintings of My Sweet Rose and The Lady of Shalott. Her brother, Opheus, a young knight, has vowed to avenge his mother's death by barbarians, and takes off on a midnight steed but is captured and held prisoner in the dungeon of an evil enchantress dressed like an old hag. He eventually escapes and rescues Aurias's daughter from her untimely death in the lily pool at the Golden Castle of Avalon.
