

# Need slides converted to digital for safe keeping?

I can convert your old photo slides or negatives to digital images for you to store forever.

I can copy to a flash drive (supplied by you) or a CD. You will then have your memories preserved.

*I offer volume discount for large orders. I do not charge per slide as a less than 25-slide project would probably not be cost-effective for my customers.*

*Use this as a guide:*

- 1-25 slides; \$15
- 26-75 slides; \$30
- 76-125 slides; \$50
- 126-300 slides; \$100

*For up to 125 slides, I could have these finished within several days.*

I can also convert:

- VHS tapes to DVD
- Cassette tapes to MP3s on CD or to a playable CD

To find out how I can help you, Call today!
