## [BLANK PAGE]

Please do not write on this page.

## Instructions

You may not use a calculator to answer any questions in this test.

Work as quickly and as carefully as you can.
You have 45 minutes for this test.

If you cannot do one of the questions, go on to the next one.
You can come back to it later, if you have time.

If you finish before the end, go back and check your work.

## Follow the instructions for each question carefully.

This shows where you need to put the answer.
If you need to do working out, you can use any space on a page.

## Some questions have an answer box like this:

For these questions you may get a mark for showing your working.

This scale shows how much Chen weighs.

How much does Chen weigh?

2 Alfie collected information about the pets owned by children in his class. Here are his results.

| Pet | Number of pets |
| :---: | :---: |
| dog | 9 |
| cat | 12 |
| rabbit | 5 |
| fish | 15 |

This bar chart shows the information from the table.
Fill in all the missing labels.

Total out of 3 $\qquad$

3 Complete this shape so that it is symmetrical about the mirror line.
Use a ruler.

5 Seb has a box of 120 cubes.

He uses some of the cubes to build a tower.

77 cubes are left over.

How many cubes has he used?

Seb has 77 cubes left over.

He builds two more towers.

One tower uses 18 cubes and the other uses 35 cubes.

How many of his 77 cubes has he got left now?

$\qquad$

6 In these calculations, each missing sign is a $\boldsymbol{+}$ or a -

Write the missing signs in the circles.

1 mark

6a

6 b

1 mark

7 Megan has 7 coins that make one pound.

The coins are of only two different kinds.

What are the 7 coins?

1 mark

8 The numbers in this sequence increase by 10 each time.

$$
\begin{array}{lll}
3 & 13 & 23
\end{array}
$$

The sequence continues in the same way.

## Write two numbers from the sequence that add to make a total of 96

$\qquad$ 8a

1 mark

Explain why it is not possible to find three numbers from the sequence that add to make a total of 96

$\qquad$

9 Join each fraction to the correct decimal card.
The first one has been done for you.

$\frac{3}{50}$
0.6

10 Here are four shapes on a square grid.

Write the letters of all the shapes that have exactly two sides which are equal in length.

$\qquad$

## 11 Calculate 32.18-7.62

12 Circle the approximate measurement.

The length of a banana is about...

* 2 cm 2 cm 2 mm 2 m 2 m

The mass of an apple is about...
》 $2 \mathrm{~g} \quad 20 \mathrm{~kg} 200 \mathrm{~kg} 200 \mathrm{~g} \quad 2 \mathrm{~kg}$

A glass of fruit juice is about...

13 Here is a design of dots and triangles on a square tile.

The tile is turned clockwise to the position below.

Shade the missing shapes in their new positions.

$\qquad$

14 The number in $\mathbf{A}$ is twice the number in $\mathbf{D}$.

The number in $\mathbf{B}$ is $\mathbf{5}$ less than the number in $\mathbf{C}$.

The number in $\mathbf{D}$ is $\mathbf{1 0}$ more than the number in $\mathbf{B}$.

Write the missing numbers in this diagram.

Now use the same rule for this diagram.

14b

15200 children went on holiday.
$10 \%$ of the children went to Wales.
$25 \%$ of the children went to Scotland.

How many more children went to Scotland than went to Wales?

$\qquad$

16 Amy did a survey of what time people get up on a Sunday morning. This table shows her results for 150 people.

| Time | number of people |
| :--- | :---: |
| before 7:00 am | 13 |
| $7: 00 \mathrm{am}$ to $7: 59 \mathrm{am}$ | 28 |
| $8: 00 \mathrm{am}$ to $8: 59 \mathrm{am}$ | 59 |
| $9: 00 \mathrm{am}$ to $9: 59 \mathrm{am}$ | 36 |
| 10 am and after | 14 |

Look at the table.

How many people get up at 8 am or later?

Amy says,
'Two-thirds of the 150 people in the survey get up before 9am.'

Amy is correct.
Explain how you know.

17 Write numbers in the boxes to make this calculation correct.

$\qquad$

18 This graph shows how the temperature changed in Liam's room one afternoon.

Estimate the temperature at $3: 15 \mathrm{pm}$.

Estimate the time when the temperature was highest.

How much did the temperature change from 2 pm to $2: 30 \mathrm{pm}$ ? Give your answer to the nearest degree.

19 Alfie has two sticks.

He puts them end to end.
Not
actual size

One stick is $\mathbf{1 0} \mathbf{c m}$ longer than the other stick.

How long are the two sticks?

$\qquad$

20 This diagram shows two identical rectangles on coordinate axes.

Write the coordinates of point A and point B.

A is $\qquad$
$\qquad$ ) $\frac{20 a}{1 \text { mark }}$
B is ( $\quad]_{1 \text { mark }}^{20 \mathrm{~b}}$

21 Amy thought of a number.

She added 0.5 to her number and then doubled the result.

Then she subtracted 0.5 and doubled the new result.

Her final answer was 61

What number did Amy start with?

$\qquad$

22 Here is a sketch of a triangle.

It is not drawn to scale.

Draw the full-size triangle accurately below.

Use a protractor (angle measurer) and a ruler.

One line has been drawn for you.

Fill in the three missing whole numbers in this calculation.

Each number is less than 10

$\qquad$

## Standards <br> \& Testing <br> Agency

2014 key stage 2 levels 3-5 mathematics: paper 2 - calculator not allowed
