Actual Customer reviews of Spiker purchase:

By Ava on July 9, 2013

I bought them for my family vacation to the beach. I got them monogrammed for the girls and put the boys names on the others. They turned out so cute. Anyway, they worked great keeping our drinks sand free! They are sturdy and big enough to fit a koozie around a can or bottle. Great price too!

By Allison C. on August 9, 2014

These are a must have for the beach! Bought these for a week in Florida and they were the best thing ever! All drinks stayed clean, phones and speaker out of the sand....amazing invention! Got asked several times where I got them!

By Wayne S. on October 17, 2014

Cup holders on beach chairs break all of the time or will not hold your drink properly. As a serious beach goer, these are perfect. Just stick these in the ground and you're good to go.

By Cindy W. on February 27, 2015

Great Product! Kids loved these at the beach. I had their names put on the side in vinyl and we never had any problem with them tipping over.

By Becky V. on June 5, 2015

These cup holders are fabulous. Perfect solution for the beach or grass. Everyone loved them and raved about how genius they are. Would totally recommend!

By Rebecca W. on June 22, 2015

These were perfect to add vinyl to & use at the beach! Cute! Cute!

By Mtairymama on June 27, 2015

These are the best and so useful for the beach. Hubby was super skeptical and thought it was ridiculous....used them at the beach and he was totally sold on them. Awesome for kids too - had one for their drink and the other to hold chips. Yes people say they are large to store but we just threw them in the beach toy bag. LOVE THEM!!!!

By Pirate Girl on November 20, 2015

These were great for the beach! They're bigger and sturdier than I expected, which is great!

By SA on March 29, 2016

Used these at the beach last week and they are just perfect! They are sturdy and bright (so you don't lose them), and big enough to fit a large insulated coffee mug. Very happy with this purchase.

By SJH on July 20, 2016

Have had these for over two years now, very hard durable plastic, no corrosion from salt air and water yet. Wide enough to stick a can in and put some ice cubes around it.
